Message from the Dean

Howdy! I extend a warm welcome to you as a Texas A&M University College of Nursing student! Congratulations on your admission or your successful progression in the program! In the Bachelor of Science degree program, I know that you will experience the core values of this great University among our faculty and current students. We take pride in our commitment to RELLIS - Respect, Excellence, Leadership, Loyalty, Integrity and Selfless Service. You are the future of nursing and a BSN from this College of Nursing will accelerate your career because of our outstanding program, our graduates who are highly sought after by employers, and our talented faculty and staff.

The Undergraduate Student Handbook is essential reading for your preparation and continuous enrollment in the College of Nursing. In this document you will learn about the College, the opportunities and responsibilities that you have as a student, and the tremendous resources that are available to you.

I am deeply honored to serve as Dean of the Texas A&M College of Nursing! I joined our University in June of 2018 after serving as Dean of the College of Nursing at another land-grant University. I am deeply committed to our mission of educational access, outreach, and research. We are leading nursing education and scientific discovery in innovative ways. I know that you will be challenged and rewarded by your studies.

As part of Texas A&M University, we are committed to preparing nurse leaders who will make a difference in the lives of their patients, organizations and communities. Our outstanding faculty and staff are dedicated to providing students with learning experiences that are meaningful and relevant for clinicians, educators and researchers. All professors are licensed registered nurses in the State of Texas, and hold a minimum of a master’s degree in nursing, many hold or are actively pursuing a doctoral degree in nursing.

Our curriculum includes coursework to further develop your scientific knowledge, critical-thinking, caring, communication and leadership skills. The clinical learning resource center offers opportunities for safe practice in an environment that simulates the actual healthcare setting.

Students are our priority in the College of Nursing, and we are so proud that you chose to pursue your education at Texas A&M University. It is an exciting time and we look forward to working with you throughout your journey.

Nancy L. Fahrenwald, PhD, RN, PHNA-BC, FAAN
Dean and Professor
College of Nursing

Disclaimer Note to Student & College/ School Offices of Academic and Student Affairs

This Student Handbook is intended for information purposes only. The provisions of this Student Handbook do not constitute a contract, expressed or implied, between any applicant, student, or faculty member and the Texas A&M System. Although every effort has been made to verify the accuracy of information in this publication, the Texas A&M System, Texas A&M University, and the College of Nursing reserve the right to change course offerings, fees, tuition, academic calendars, curricula, degree requirements, graduation procedures, and any other requirement affecting students. Changes will become effective whenever the proper authorities so determine and will apply to both prospective students and those already enrolled. The College, at all times, retains the right to dismiss a student who does not attain and maintain adequate academic or clinical performance or who does not exhibit the personal and professional qualifications required for the practice of nursing.

Updates and changes are made annually to the handbook. The Texas A&M University System, Texas A&M University, and the College of Nursing reserve the right to make changes to policies and procedures without notice as necessitated by governing authorities or administrative needs.

Detailed instructions on processes related to the Offices of the Registrar, Financial Aid and Student Business Services can be obtained by contacting the respective office or visiting their websites.

Notice of Nondiscriminatory Policy

Texas A&M University provides equal opportunity to all employees, students, applicants for employment or admission and the public regardless of race, color, sex, religion, national origin, age, disability, genetic information, veteran status, sexual orientation, or gender identity. Texas A&M University will promptly investigate all complaints of illegal discrimination, sexual harassment, and related retaliation in accordance with applicable federal and state laws.

The College of Nursing complies with Section 504 of the Americans with Disabilities Act and does not discriminate on the basis of an individual’s handicap in its admission, accessibility, treatment, and employment of students in its programs and activities. The College of Nursing provides academic adjustments and auxiliary aids to students with handicapping conditions, as defined under the law, who are otherwise qualified to meet the institution’s academic requirements. For additional information, contact the CON Office of Student Affairs at (979) 436-0110.
College of Nursing Mission, Vision & Philosophy

Vision
Our vision is to be a premier College of Nursing, educating and empowering a diverse population of nurse leaders who will transform health and health systems through service, discovery and knowledge.

Mission
The mission of the College of Nursing is to educate professional nurses of today and leaders of tomorrow through the provision of excellent educational programs in nursing. The College will identify, attract and graduate students of high potential, especially those from groups who have been historically under-represented in Texas health care. Furthermore, this mission will facilitate individuals, families, and groups in achieving the maximum state of well-being through education of highly skilled nurses, research and service. The mission of the College will be enhanced through faculty contributions to community service, leadership, practice and research.

Goals
In support of the vision and mission, the College of Nursing is committed to the following educational goals:

- Develop within the student the knowledge and skills necessary for beginning professional nursing practice, cultivating basic and specialized abilities needed to pursue a successful career in the nursing profession.
- Promote the concept of nursing as holistic caring, and facilitate attainment of a care delivery system sensitive to multicultural communities and their health values.
- Use technology to facilitate and enhance student learning outcomes both inside and outside of the classrooms.
- Offer individuals the opportunity to increase the breadth and depth of the theoretical base for nursing practice, enhance and expand competence, prepare for role specialization, and utilize new nursing knowledge.
- Provide an educational environment of respect within which students may evolve as broadly educated, responsible, and accountable professionals dedicated to the principles of lifelong learning.
- Serve the community as nursing experts, leaders and consultants in professional organizations, health promoters, providers of health care policy information, and advocates of ethical distribution and usage of resources.
- Provide educational opportunities that combine the expertise and skills of nursing students, medical students, future hospital administrators and public health professionals to promote collaborative partnerships and relationships on many levels.
- Contribute to the improvement of nursing education through innovation, evaluation, and participation in local to global nursing education activities.
Philosophy
The philosophy of the Texas A&M University College of Nursing* (CON) reflects our beliefs about the role and the education of the professional nurse. This philosophy represents a blend of nursing theories.

Professional Nursing Practice
Nursing is a balance of both art and science. The art of nursing involves the concepts of caring that fosters respectful relationships and individual dignity and worth. The science of nursing is supported through inquiry, research and other scholarly activities and is manifested by evidence-based practice.

The professional nurse is a partner and an advocate for the health care consumer in an increasingly diverse and aging population. Professional nursing provides culturally competent care to individuals, families and groups within their environments. Care of the physical, psychosocial and spiritual needs is essential to the promotion, protection and maintenance of health.

The baccalaureate nurse functions in the roles of provider of care, coordinator of care, and contributor to the profession. Care is provided in and across all settings and health care systems, and uses a number of treatment modalities. As a provider of care, the nurse contributes a unique blend of knowledge, skills, and caring. As a coordinator of care, the nurse has the knowledge and authority to delegate nursing tasks to other health care personnel and to supervise patient care outcomes. As a member of the profession, the nurse conforms to the laws and code of ethics governing professional standards of nursing practice. In all these roles, the professional nurse accepts personal responsibility for lifelong learning.

Professional Nursing Education
Nursing education is a collaborative process among students, faculty, and the learning environment. It draws from the fields of physical and social science and liberal arts to support the acquisition of knowledge and skills essential for nurses to meet client, family, organization, and system needs. Course and clinical experiences throughout the curriculum are designed from simple to complex, beginning with foundational courses in liberal arts and sciences which are then built upon in nursing classes.
Expected Student Outcomes

Baccalaureate graduates of the College of Nursing will:

Provide Care

1. Integrate concepts, models, and theories of nursing, the humanities and the natural, psychological, and sociological sciences as the foundation for professional nursing practice.
2. Apply concepts and theories as a base for problem solving decision making and critical reasoning in evidenced based nursing practice.
3. Use effective and therapeutic communication in formal and informal interaction with clients, colleagues and other members of health care team.
4. Utilize the nursing process in the holistic care of diverse individuals, families, groups, communities and populations in various healthcare settings.
5. Apply current standards of professional nursing practice in providing care to individual, families, groups, communities and populations.

Manage Care

6. Utilize leadership and management skills while implementing safety principles to create a safe, caring environment for care delivery.
7. Use information management and patient care technology in the delivery of health care.

Participate as a Member of the Profession

8. Collaborate with other interprofessional health care team members to provide health promotion and disease and injury prevention across the lifespan for individuals, families, groups, communities, and populations.
9. Modify care and advocate for patients in reflecting current and changing healthcare systems, health policies and global health care factors.
10. Demonstrate ethical accountability and legal responsibility for professional practice.
11. Integrate professional nursing values of altruism, autonomy, human dignity, integrity and social justice in professional nursing practice.
12. Demonstrate accountability for lifelong learning and professional growth.

Essential Competency Requirements of the Student Nurse

The curriculum leading to the BSN degree requires students to engage in diverse, complex, and specific experiences essential to the acquisition and practice of critical nursing skills and functions. Unique combinations of cognitive, affective, psychomotor, physical and social abilities are required to satisfactorily perform these roles. The Essential Performance Requirements of the Student Nurse are required for successful admission and completion of the program.

All students accepted into the College of Nursing are expected to have the following competencies in order to effectively and safely perform the responsibilities of a nursing student. Each student is expected to read these essential requirements, return and sign the verification form provided upon acceptance indicating they have read, understood and agreed to these requirements.

Motor Skills

Candidates should have sufficient motor function so that they are able to execute movements required to provide general care and treatment to patients in all health care settings. [For example: For the safety and protection of the patients, the candidate must be able to perform basic life support, including CPR,
and function in an emergency situation. The candidate must have the ability, within reasonable limits, to safely assist a patient in moving, for example, from a chair to a bed, or from wheelchair to commode.

**Sensory/Observation**

A candidate must be able to acquire the information presented through demonstrations and experiences in the basic and nursing sciences. S/he must be able to observe a patient accurately, at a distance and close at hand, and observe and appreciate non-verbal communications when performing nursing assessment and intervention or administering medications. The candidate must be capable of perceiving the signs of disease and infection as manifested through physical examination. Such information is derived from visual images of the body surfaces, palpable changes in various organs and tissues, and auditory information (patient voice, heart tones, bowel and lung sounds).

**Communication**

The candidate must communicate effectively and sensitively with other students, faculty, staff, patients, family, and other professionals. S/he must express his or her ideas and feelings clearly and demonstrate a willingness and ability to give and receive feedback. The candidate must be able to communicate effectively in oral and written forms. The candidate must be able to process and communicate information on the patient's status with accuracy in a timely manner to members of the health care team.

**Cognitive**

A candidate must be able to measure, calculate, reason, analyze, integrate and synthesize in the context of undergraduate nursing study. The candidate must be able to quickly read and comprehend extensive written material. S/he must also be able to evaluate and apply information and engage in critical thinking in the classroom and clinical setting.

**Behavioral/Emotional**

A candidate must possess the emotional health required for the full utilization of his or her intellectual abilities, the exercise of good judgment, the prompt completion of all responsibilities attendant to the diagnosis and care of patients and families. In addition, s/he must be able to maintain mature, sensitive, and effective relationships with patients, students, faculty, staff and other professionals under all circumstances including highly stressful situations. The candidate must have the emotional stability to function effectively under stress and to adapt to an environment that may change rapidly without warning and/or in unpredictable ways. The candidate must be able to experience empathy for the situations and circumstances of others and effectively communicate that empathy. The candidate must know that his or her values, attitudes, beliefs, emotions, and experiences affect his or her perceptions and relationships with others. The candidate must be able and willing to examine and change his or her behavior when it interferes with productive individual or team relationships. The candidate must possess skills and experience necessary for effective and harmonious relationships in diverse academic and working environments.

**Professional Conduct**

Candidates must possess the ability to reason morally and practice nursing in an ethical manner. Candidates must be willing to learn and abide by professional standards of practice. S/he must possess attributes that include compassion, empathy, altruism, integrity, honesty, responsibility and tolerance. Candidates must be able to engage in patient care delivery in all settings and be able to deliver care to all patient populations including but not limited to children, adolescents, adults, developmentally disabled persons, medically compromised patients, and vulnerable adults.
Accreditation

Commission on Colleges of the Southern Association of Colleges and Schools (SACS)
Texas A&M University is accredited by the Commission on Colleges of the Southern Association of Colleges and Schools to award baccalaureate, master’s, doctoral, and professional degrees. While SACS accredits the institution as a whole, many of the academic degree programs offered at the HSC also undergo accreditation by specialized accrediting bodies. More information on the accreditation report is available through the Office of the Provost.

Commission on Collegiate Nursing Education (CCNE)
The Commission on Collegiate Nursing Education is an autonomous accrediting agency, contributing to the improvement of the public’s health. A specialized/professional accrediting agency, CCNE ensures the quality and integrity of baccalaureate and graduate nursing programs and of post-baccalaureate nurse residency programs. The HSC-College of Nursing was granted a full 10 year accreditation in October 2014 by the CCNE. For more information on accreditation, visit the American Association of Colleges of Nursing, CCNE Accreditation webpage.

Texas Board of Nursing (TBON)
Approval of nursing education programs is one of the primary functions that the Texas Board of Nursing performs in order to fulfill its mission to protect and promote the welfare of the people of Texas. The Board has the responsibility and legal authority to decide whether a nursing education program can meet the Board’s established minimum standards for educational programs. The HSC-College of Nursing was granted full approval on April 22, 2010 upon graduation of the first class of students with 100% pass rate on the NCLEX exam.
Chapter 1: General Information

Academic Calendar
The College of Nursing adheres to the Texas A&M University Academic calendar for class dates and holidays/vacation, available each semester from the University Registrar's Office and at Academic Calendars.

Attendance, Absences and Makeups
Students are responsible for learning the content of any course of study, including material presented in the classroom. Class participation and attendance are expected of each student. If a student should miss a class, he/she should email the faculty member and/or the Course Leader as soon as possible. If the absence is anticipated such as due to illness or personal emergency, the student should notify the immediate faculty member and/or the Course Leader prior to the start of the class/lab to be missed. For an injury or illness of three or more days, the student should obtain a medical confirmation note from his or her medical provider. Should you request an extended absence, please speak to an advisor. See Student Rule 7 for more information regarding excused, unexcused and extended absences.

The instructor reserves the right to request satisfactory evidence to substantiate the reason for absence for bereavement: death or major illness in a student’s immediate family. Immediate family may include: mother, father, sister, brother, grandparents, spouse, child, spouse's child, spouse's parents, spouse’s grandparents, stepmother, step-father, step-sister, step-brother, step-grandparents, grandchild, step-grandchild, legal guardian, and others as deemed appropriate by faculty member or student’s academic Dean or designee.

Awareness of and Respect for Diversity
Texas A&M University and the College of Nursing fully support an environment wherein individuals (i.e., students, staff, faculty, guests) can work as partners in achieving goals. While engaged in didactic learning and experiential rotations, students are required to behave and act in a manner that is expected in nursing and all health professions. Such behavior and actions are guided by respect for other students, faculty, staff, patients, and health care professionals who may have differences that include (but are not limited to) the following: religious beliefs and practices, nontraditional medical beliefs and practices, socioeconomic status, sexual orientation, ethnicity, language, physical and emotional disabilities, racial background, intellectual capabilities, age, and cultural background. Respect is demonstrated by being considerate, courteous, and professional, and by maintaining confidentiality of patient information.

Campus Carry
The 84th Texas Legislature passed Senate Bill 11, effective August 1, 2016, and expands the areas on public university campuses where those with appropriate licenses are authorized to carry concealed handguns. The President’s Advisory Committee on Campus Carry Implementation has established procedures for the implementation of Carrying Concealed Handguns on Campus, University Rule 34.06.02.M1.
Child Care Guidelines

No child care facilities are available in the College of Nursing. Each faculty member will set their own classroom policies regarding children in the classroom. Under no circumstances will children be allowed in the clinical settings or in the simulation lab.

Computer Requirements

A laptop computer is required of all pre-licensure students. It is the responsibility of the student to ensure that his/her computer has the required software installed upon admission and updated throughout his/her time as a student in order to access course information through the learning management system and other required systems/websites. At all times, the student’s computer should be capable of running the programs. Upon admission, students will be provided with detailed specifications for either a Mac or a Windows laptop. Students will be granted access to an online orientation course with specific instructions and assignments in the eCampus Learning Management System to ensure their computers meet all technical requirements. Completion of the orientation course is required prior to being given access to the learning management system courses. If you have questions regarding any of the hardware or software required, please contact the OIT Helpdesk at 1-800-799-7472 and identify yourself as a Nursing student.

NOTE: RN to BSN students are not required to have a laptop computer, but must have the required software on a computer as required by the designated program.

Exposure to Chemicals

All students in laboratory courses will be required to complete a lab safety training course. Any pregnant student, or student planning to become pregnant, should consult their health care provider to determine what, if any, additional precautions are needed based on their individual situation. It is the responsibility of the student to communicate their needs to the Associate Dean for Student Affairs as soon as possible in order for risk-reduction to begin when it can be most effective, and to determine if additional modifications are necessary. While the university cannot mandate that the student notify it if pregnant or planning to become pregnant, the university strongly recommends that students do provide notification so appropriate steps can be taken to ensure the health of both parent and child. To communicate health circumstances or to request additional information, please contact the Associate Dean for Student Affairs.

Students with latex allergies must notify their instructors each term.

Legal Violations

Any student charged with a crime, with or without conviction, must notify the Associate Dean for Student Affairs within 72 hours. Failure to disclose could result in disciplinary action. Some convictions such as fraud, abuse, or assault may result in being unable to be licensed as a nurse. Each situation must be assessed for further action. Note: future employment as a RN may be limited in some states based on legal convictions.

Religious Holy Days

As defined in the Texas State Law, a “religious holy day” means a holy day observed by a religion whose places of worship are exempt from property taxation. The College of Nursing will excuse a student from attending classes or other required activities, including examinations, for the observance of a religious holy day, including travel for that purpose. A student who is absent from classes for the observation of a religious holy day will be allowed to take an exam or complete an assignment scheduled for that day within a reasonable time after the absence. The language of House Bill 256 was adopted into Texas A&M
Student Rules, Appendix IV: Excused Absences for Religious Holy Days. Students are asked, but not required, to request absence from the class in writing (email acceptable). It would be most helpful if the student would submit the request to each course leader within the first 5 days of the semester for which the absence is requested. A student who is excused for holy day observance may not be penalized for the absence, but the instructor may appropriately respond if the student fails to satisfactorily complete the assignment or examination within a timely manner. For a list of holy days and their description, view The Interfaith Calendar and the PBS Multifaith Calendar.

Satisfactory Academic Progress (SAP Policy)
Students must maintain eligibility requirements to receive financial aid. For more information on this, please refer to the information available on the TAMU Financial Aid website and/or contact a Financial Aid Advisor.

Title IX and Sexual Violence/ Harassment
Title IX of the Education Amendment of 1972 prohibits discrimination on the basis of sex in educational programs and activities at institutions that receive federal financial assistance. Sexual harassment, including sexual violence, is a form of sex discrimination and is therefore prohibited under Title IX. Unwelcome sexual advances, requests for sexual favors, and other verbal, nonverbal or physical conduct of a sexual nature constitute sexual harassment when this conduct is so severe, persistent or pervasive that it explicitly or implicitly affects an individual’s employment, unreasonably interferes with an individual’s work or educational performance, or creates an intimidating or hostile work or educational environment.

Texas A&M University is committed to providing an environment of academic study and employment free from harassment or discrimination to all segments of its community: its faculty, staff, students, guests and vendors. All complaints of discrimination, sexual harassment, and related retaliation will be promptly addressed in accordance with applicable federal and state laws. Sexual violence, sexual harassment, dating violence, domestic violence or stalking can happen to anyone. Texas A&M wants to make sure you have resources available to help you or someone you know who has been impacted by sexual violence, sexual harassment, dating violence, domestic violence or stalking.

There are many services available to support all students (online or traditional), faculty and staff in crisis. Call the Associate Dean for Student Affairs at 979-436-0110 for assistance, view the TAMU web page for Title IX, and/or contact the Sexual Assault Resource Center in the Bryan-College Station area directly by calling 979-731-1000. The Sexual Assault Resource Center's goal is to stop sexual violence through advocacy, empowerment, and education. SARC offers a 24-hour crisis hotline, 24-hour accompaniment to medical facilities, accompaniment to meet with law enforcement or court appearances, provides free counseling to survivors and family members or survivors of sexual assault, and makes professional and educational presentations to schools, businesses, and other agencies. In the Round Rock location, you may contact the Hope Alliance Center at 512-255-1212. This center is dedicated to empowering victims of family violence, sexual assault, and other violent crimes through support and advocacy, while promoting community awareness, compassion, and responsibility for creating a safer community. The staff assists victims in finding counseling, housing and employment, and works closely with law enforcement agencies, hospitals, and others involved in crisis intervention.

Student Assistance Services can help to identify or provide assistance. Other resources are available on the Step In/Stand Up website.
The Office of the Dean of Student Life, the Human Resources Department employee relations office, and the Office of the Dean of Faculties are available to serve as resources to any student, non-faculty employee, or faculty member who has a sexual harassment inquiry or complaint. A person who believes he or she has been the victim of sexual harassment may pursue either the informal or the formal complaint resolution procedure. Any faculty member, staff member, or student may initiate a complaint. For more information, see Student Rule 47.

**Smoking Policy**

All buildings and vehicles, regardless of location, that are owned or leased under the administrative purview of the president of Texas A&M University will be entirely smoke-free. This smoke-free rules will apply to all indoor air space, including foyers, entryways and classrooms, individual faculty and administrative offices. Many clinical settings have their own smoking policies. Students are expected to abide by the rules of each institution. A violation of this policy is considered unprofessional conduct and can result in disciplinary action leading to professional probation. Violators will be subject to disciplinary action. For more details on this policy, see Student Rule: Appendix IX.

**Social Media Policy**

The University presence or participation on social media sites is guided by university policy. This policy applies to College of Nursing students who engage in internet conversations for school-related purposes or school-related activities such as interactions in or about clinical and didactic course activities. Distribution of sensitive and confidential information is protected under HIPAA and FERPA whether discussed through traditional communication channels or through social media.

The American Nurses Association (2011) defined social media as web-based services that allow an individual to construct private or semi-private profiles within a system in order to articulate a list of other users whom they share a connection and view their lists of connections made by others within the system. Examples of social media include Facebook, Twitter, Instagram, Snapchat and YouTube, to name a few. “Nurses must maintain vigilance regarding postings, images, recordings, or commentary that intentionally or unintentionally breaches their obligation to maintain and protect patients’ rights to privacy and confidentiality” (ANA, 2015, p. 9).

CON students are responsible and accountable for any and all content (in any format whatsoever) posted, transmitted, or communicated on, by or through any social media account associated with a CON student. The use of social media sites is not approved for classroom communication. The CON utilizes eCampus for course information and communication as well as TAMHSC email. Any information shared on social media sites in conjunction with the course regarding clinical sites, patient information, pictures, or sharing of course content such as exam questions, may lead to disciplinary action. These actions may range from an unsafe/unprofessional write up to permanent dismissal from the program, depending on the level and severity of the violation. All course material developed by faculty is the property of the College of Nursing and the individual faculty member. This property cannot be used without prior consent from the faculty (http://studentrules.tamu.edu/rule22).

CON students should strictly follow guidelines as noted below:

- Do not share, post, or otherwise disseminate any information, that can identify a patient, or in any way violate a patient’s rights or privacy. This includes activities in the CLRC/simulation setting. Limiting access through privacy setting is not sufficient to ensure privacy of patients.
- Never post photographs or any information gained in a nurse-patient relationship.
• Maintain professional boundaries in the use of electronic media. Online contact with patients blurs these boundaries.
• Do not post inflammatory or unflattering information about peers, patients, clinical sites and/or their employees on any social media site. Make every effort to present yourself as mature, responsible, and professional.
• Promptly report any breach of confidentiality or privacy to your faculty member.
• Do not share any protected health information. (HIPAA)
• At all times, behave in a manner consistent with the standards set forth in the Nursing Code of Ethics. Uphold ethical/legal obligations and guidelines regarding patient privacy and confidentiality.

**Student Complaints**

The College of Nursing is committed to providing a learning environment for its students in which complaints are responded to in a prompt and fair manner.

For concerns regarding a class, students should first speak with their instructor. If they do not believe the situation was satisfactorily resolved, they may then speak to the course leader, if applicable. If still no resolution has been reached, the student may contact the program coordinator, followed by the Associate Dean for Student Affairs, and lastly, the Dean. Students are expected to follow this chain of command with their course concerns.

For general concerns of any nature, students should contact their academic advisor who will direct the student appropriately.

Student rule violations outside of the academic classroom environment are reported through Student Conflict Resolution Services.

To report a behavioral concern on the part of a member of the student body, faculty, or staff, refer to the Tell Somebody Reporting process.

To report instances of suspected waste, fraud, or a suspected ethics violation, use the Texas A&M University Systems Risk, Fraud, and Misconduct Hotline.

For anonymous complaints, students may go to the Texas A&M Health Science Center (HSC) Risk and Misconduct Hotline.

Current, former, and prospective students may email Student Complaints or mail a completed THECB student complaint form to THECB’s Office of General Counsel. A non-exhaustive list of exceptions to the types of complaints handled by THECB is provided in the student complaint rules.

For students with academic grievances or other types of related concerns, these procedures are addressed in the Texas A&M University Student Rules.

**Student Name or Address Changes**

The Office of the Registrar is responsible for maintaining a student's official legal name for Texas A&M University and for the State of Texas. For official name change procedures, go to the Student Name Change webpage. Name changes for degree candidates must be completed within one week after the deadline to apply for graduation. Students submitting a name change request after this date must pay an additional diploma fee to receive a diploma with their new name. Also, diplomas ordered after this deadline may not be received in time for distribution at the commencement ceremony.
The student's current mailing address and permanent address must be correctly listed in the academic record. Any change in the student's address should be promptly reported to the College of Nursing and changed through the Howdy portal. Because of SEVIS reporting requirements, international students are not permitted to make changes to their permanent address in Howdy. These students should contact International Student Services if their permanent address is incorrect or needs to be changed. A student will not be excused from penalties on grounds of not receiving communications mailed from the CON if the student failed to report the new address.

**Transcript Requests**

An official transcript is a comprehensive record of a student's academic progress at Texas A&M University. The Transcript section of the Office of the Registrar produces only official transcripts. **Current students** needing an unofficial transcript may print one from Howdy on the My Record tab. **Former students**, fall 1985 to present, needing an unofficial transcript may print one from Howdy on the Former Student tab. (Former students please also refer to the section on online ordering information below for additional help on how you will need to log onto Howdy.)

**Ordering an Official Transcript**

Students with outstanding financial obligations to the University may be BLOCKED from receiving an official transcript. **Current students** may check for transcript blocks on Howdy on their My Record tab. **Former students** may check for transcript blocks on Howdy on the Former Student Tab. It is the student's responsibility to clear transcript blocks.

For transcript order procedures and to obtain an order form, go to the Registrar's website.

**University Identification Badge**

New students are required to obtain their university ID badge during New Student Orientation at the General Services Complex. Students will also receive a clinical ID badge which will be provided by the College of Nursing Office of Student Affairs during the first 2 weeks of class. RN to BSN students will receive their badge in the mail. College of Nursing ID badges must be worn at all times in all clinical settings when performing student related activities. Wearing a badge is an issue of security and safety, as well as a requirement for the agency and the university. Any student who forgets their ID badge will not be allowed to participate in clinical until they present with proper identification.

Students are not to wear their clinical ID badge outside the classroom/clinical setting. The advisor or another College of Nursing faculty member must be present at all times at special events that might include or lead to nursing interventions, i.e. patient assessment or patient care.

In addition to the university and the clinical ID badge, students who attend classes on the Bryan/College Station and the Round Rock campuses will receive a building access badge provided by the Office of Student Affairs.

**Universal Identification Number (UIN)**

A student’s "Universal Identification Number" or "UIN" is assigned by the Office of the Registrar and remains constant for the duration of the student's degree program. The Office of the Registrar provides all applicants their individually assigned UIN during their admission process. Students should contact the registrar for any questions and/or concerns about their UIN at (979) 845-1031.
Weapons Policy & Campus Carry

The Texas A&M University Student Rule 24 addresses student conduct as it relates to weapons. The University is committed to complying with state and federal laws.

The 84th Texas Legislature passed Senate Bill 11 in 2015, which expands the areas on public university campuses where those with appropriate licenses may carry concealed handguns. Universities have been given discretion to implement the law based on our unique campus cultures, with a focus on safety and the gathering and careful consideration of input from the broad campus community. The President's Advisory Committee on Campus Carry Implementation has established procedures for the implementation of Carrying Concealed Handguns on Campus, University Rule 34.06.02.M1. For more information, see the campus carry information.

Weather and Other Campus Crisis Events

Should there be a weather related or other event that would cause the campus to be closed, information will be made available to the local television and radio stations. Please check the university website as well for the latest details. In the event of an emergency in progress, you may call 9-911 for immediate assistance from any HSC campus phone.

Code Maroon and HSC Alert Emergency notification services provides notice of campus emergencies. Students are encouraged to sign up for text and/or email notices.

CON Faculty may communicate via the eCampus learning management system with regard to unexpected schedule changes due to weather and other situations.

Students should check the announcements or scheduling section of eCampus on a regular basis.
Chapter 2: Undergraduate Program

Guided by requirements of the Texas Core Curriculum, the University Core Curriculum at Texas A&M University assures that all undergraduate students are afforded a breadth of understanding. The Core Curriculum emphasizes competence in the process of learning, the capacity to engage in rigorous and analytical inquiry, and the ability to communicate clearly and effectively. It supports the development of knowledge about and appreciation for our cultural heritage, our social and personal responsibilities, and our interactions with the economies and cultures of the international community.

The University Core Curriculum acts to enrich and broaden the University’s tradition of providing thorough preparation in each student’s academic major. Requirements are described in the Undergraduate Catalog and must be met by every student pursuing a baccalaureate degree program at Texas A&M University.

Tracks Leading to the Bachelor of Science in Nursing (BSN) Degree

Traditional BSN Track
The Traditional BSN Track consists of 120 semester credit hours. Students must complete pre-nursing course work in general education and in the basic physical and biological sciences. Students may complete the pre-nursing curriculum at any accredited college, university, or community college. After acceptance into the program, students will complete 61 semester credit hours of nursing curriculum and obtain their degree in two years.

Second Degree BSN Track
To be admitted to the Second Degree BSN Track, applicants must hold either a bachelor of science or bachelor of arts in another discipline. The Second Degree BSN Program requires completion of prerequisite nursing courses plus any Core Curriculum coursework that has not been met through another degree program. After acceptance into the program, students will complete 61 semester credit hours of nursing curriculum and obtain their degree in 15 months of instruction. NOTE: A student with a bachelor’s degree may apply to the Traditional BSN Track should they wish to follow a slower-paced curriculum plan.

Acceptance into the Traditional and/or Second Degree track is competitive and decisions are made utilizing various criteria. Specifically, the Admissions Selection Committee is guided by the following:

- Prerequisite Coursework GPR
- Nursing Prerequisite Courses GPR
- Admissions Assessment (A2) HESI entrance exam
- Extracurricular activities and leadership
- Community service/Health-related experiences
- Personal Statement/Essay (s)
- Interview, if requested by Admissions Selection Committee
RN to BSN Track
To be considered for admission to the RN to BSN Track, an applicant must be a graduate of an accredited institution of higher education. Admission is limited and competitive for all students. Applicants must provide a copy of their valid RN license along with their application documents. Candidates must have successfully completed (grade of “C” or better) all of the required nursing prerequisite courses prior to the first class day. Your acceptance as an RN to BSN student in the College of Nursing is influenced by many factors. Specifically, the Admissions Selection Committee is guided by the following:

- GPR Undergraduate
- GPR in Nursing Prerequisite Courses
- GPR in previous nursing program
- Number of repeated courses
- Extracurricular activities and leadership
- Community service
- Personal Statement/Essay (s)
- Relevant work experience
- Interview, if requested by Admissions Selection Committee

The following is a description of the prerequisites required for the Traditional BSN, Second Degree BSN, and RN-BSN tracks:

**Coursework identified by their Texas common course number**

### Standardized Testing

The CON utilizes computerized specialty and exit exams throughout the curriculum offered through the leading nursing publisher and leading provider of exams predicting student performance on the NCLEX exam. These exams (also known as HESI exams) are offered through Evolve Reach and may be used confidently to assess students' progress as well as their preparedness for the licensure exam. The tests reflect questions on the actual NCLEX exams, and all items have evidence-based reliability and validity to ensure accurate measurement of test scores and prediction of NCLEX examination success.

Immediate diagnostic reports are provided to identify areas that require further study. Remediation content is customized based on the individual student areas of weakness. Exit exams evaluate student readiness for the NCLEX exam, with an average predictive accuracy of 97.4%.
Chapter 3: Admissions Procedures and Compliance Requirements

Applicants are encouraged to review the CON website for specific admission procedures and requirements depending on the track to which you are applying. Deadlines will vary. Students applying to any of the three BSN tracks must provide the following as a minimum:

- A completed application, payment of any associated fee, submission of official college transcripts and personal statement (essay). Depending on the track, students may be required to submit both a NursingCAS and an Apply Texas application.
- Completion of prerequisite courses by the time of enrollment with a grade of “C” or better; Prerequisite courses may be in progress during the application period. Students will be required to list courses in progress on the application. Acceptance offers will be contingent on successful completion of prerequisite coursework prior to the first class day. (See Chapter 2)
- Admissions Assessment (HESI A2) entrance exam (Not required for RN to BSN applicants)
  More information on registering for the exam and submitting scores to the CON is available on the website.

Admitted students must have a clear background check and negative drug screen report or the admission offer will be rescinded. The Texas Board of Nursing (TBON) requires all unlicensed applicants to have their eligibility for licensure determined before entering a nursing degree program. Applicants will undergo fingerprinting whereby the TBON will then provide an outcome of eligibility for licensure prior to enrollment.

RN to BSN students must present a current, active RN license to practice in the State of Texas with no stipulations. RN to BSN applicants who earned an Associates Degree through an LVN to RN or EMT to RN program should speak with an advisor before submitting an application to assure a minimum number of transferable credit hours.

Additional Requirements for International Applicants

In addition to each program's stated application requirements, applicants with foreign transcripts must also include an official World Education Services (WES), Global Credential Evaluators (GCE), or Educational Credential Evaluations, Inc. (ECE) transcript evaluation report listing course by course U.S. grade point equivalencies and semester credits received. These reports must be sent directly from the evaluation agency in the original sealed envelope to NursingCAS. Send to: NursingCAS, P.O. Box 9201, Watertown, MA 02471. If being sent via UPS or FEDEX, send to NursingCAS Transcript Department, 311 Arsenal Street, Suite #15, Watertown, MA 02472.

If admitted to the College of Nursing, applicants with foreign transcripts must submit the native language transcript along with an official English translation. These documents must include all original seals and/or signatures and be approved by the Texas A&M Office of Admissions prior to enrollment in the program.

Texas A&M University requires students from non-English-speaking countries to demonstrate the ability to speak, write, and understand the English language. English language proficiency requirements for enrollment may be greater than those required for admission. After admission, you must meet the following criteria before you will be able to register for academic coursework.

Undergraduate International Students

To demonstrate your ability, you must fulfill one of the following:

- TOEFL score of at least 100 iBT or 600pBT
- SAT Critical Reading score of at least 500,
• ACT English score of at least 21,
• IELTS score of at least 7.0 overall band
• Completing all four years in a high school within the U.S.
• Transfer from an accredited U.S. institution of higher education with at least 30 semester credit hours (including the equivalent to Texas A&M's English 104 with a grade of 'C' or better).

If you do not meet one of the above conditions, you must take the English Language Proficiency Examination (ELPE). The ELPE evaluates English grammar, writing, vocabulary, reading, listening and speaking skills. A score of at least 70 is required on each ELPE test area to meet English Proficiency Requirements. For testing schedules, please visit the Data and Research Services (DARS) website.

Following the ELPE, student placement in Texas A&M and/or English Language Institute (ELI) courses is made by the International Student Placement Committee (ISPC). You will required to enroll in ELI courses in each skill area for which you score below 70.

The College of Nursing requires an official copy of test scores and/or other documentation in order to verify English proficiency requirements. The test must have been completed within the previous two years. International applicants will be expected to present declaration of finances, F-1 travel documents and the immigration informational questionnaire upon acceptance to the College of Nursing and meet all deadlines required by the Office of International Student Services.

**Admissions Criteria**

Students applying to the College of Nursing must complete selected coursework as a condition of acceptance. If the student completed a core curriculum from another Texas public institution in a previous degree program, they are not required to complete the Texas A&M Core Curriculum. Students, however, must meet the program prerequisite course requirements. For information on Field of Study coursework, please see the website. Students transferring from out of state, from a private institution, those with an international degree or anyone with concerns about this requirement, please contact the Office of Student Affairs for more clarification. Students will not be considered for admission unless all of the required coursework will be completed by the time of enrollment. Admission to all programs is competitive.

**Notification of Admission Decisions**

Official notification is provided via the Texas A&M Applicant Information Portal (AIS) portal or through the Nursing CAS application portal. All applicants will receive a communication as to their status whether admitted, denied, incomplete, or given the option of placement on a waiting list.

A select number of applicants who are not admitted in the initial round may be offered the opportunity to be placed on a waiting list. If space becomes available, additional offers may be extended. It is the policy of the College of Nursing that information regarding placement on the waiting list will only be provided by appointment.

**Campus Transfer Requests**

Pre-licensure (Trad BSN and SD-BSN) are admitted to a specific campus location and must attend all classes, exams, simulations labs, and clinical experiences at that location throughout the duration of the program. Due to strict regulations from the Texas Board of Nursing which govern clinical rotations, the College of Nursing does not allow students to transfer from one campus to another.
Transfer Course Credit Policies

A student may submit undergraduate course credits earned at other universities for application toward the Texas A&M University College of Nursing BSN degree. Transfer credit will be determined by the College of Nursing Office of Student Affairs on a course-by-course basis. Course content will be determined by catalog course description or course syllabus. Credit submitted for transfer must be on an official transcript received from the registrar of the institution where the credit was earned.

The transfer of credit decision will be based on the following criteria:

- Courses given by regionally accredited institutions are considered for transfer if:
  a. They are acceptable as credit for a bachelor’s degree at a regionally accredited institution
  b. Course content is at or above the level of courses specified in the College of Nursing requirements for admission.
- Courses intended for use in a vocational, technical or occupational program do not transfer.
- Credit on the transcript must appear in semester hours or credits that may be converted to semester hours.
- Credit by examination courses may be transferred if accepted by another college and followed by sequenced coursework.
- Equivalency of coursework is determined by content found in catalog course descriptions or syllabi of courses.
- Two or more courses may be combined to form one or more equivalent courses.
- Credit will not be given for courses which were completed at non-accredited institutions.
- In any case where a decision cannot be made using the above criteria, the Office of Student Affairs will determine the transfer of credit based on TAMHSC policy, previous actions of the University, and prior experience.

This policy is reviewed every two years.

Residence Requirement for Baccalaureate Degree

A minimum of 36 semester hours of 300 and 400 level course work must be successfully completed in residence at the College of Nursing to qualify for a baccalaureate degree. The RN-BSN program meets the requirement by completion of 30 semester hours.

Transfer from Another Nursing Program

A student who has been enrolled in another Nursing program may request admission as a new or transfer applicant. Criteria used in the decision will be based on the following criteria:

- Applicants must have a minimum 3.0 GPA (on a 4.0 scale) on all nursing coursework completed.
- Admission will be dependent on space available. Spaces in clinical courses are tightly controlled by both accreditation and clinical agency policies.
- Courses accepted for transfer must be similar in content and credit to the College of Nursing course. Applicants must present a course description and course syllabus for review to the Office of Student Affairs before credit will be granted.
- No grade below a “C” in any nursing course will be accepted for transfer.
- Applicants must submit a letter from the Dean of the previous program stating they would be eligible to return to the previous nursing program as a student in good standing.
- Applicants must meet the residence hour requirement for the bachelor’s degree.
- Students will need to complete an assessment prior to beginning classes to determine clinical skills/experience, knowledge base, use of equipment, software and technology, etc. If
deficiencies are noted, student may be required to complete an independent study course to
assist them in successfully transitioning into the new program.
 Students must demonstrate competence in both nursing content and clinical proficiencies in
courses completed more than six (6) months prior to the time of application through an
examination and/or clinical demonstration.
 Other documentation subject to the discretion of the Associate Dean for Academic Affairs.

Texas Success Initiative
The Texas Success Initiative (TSI) was instituted to ensure that students enrolled in Texas public colleges
and universities possess the necessary academic skills to perform effectively in college.
The Texas Success Initiative

• Is required by the Texas State Legislature for identifying and preparing academically those
students whose basic skills in reading, writing and/or mathematics are less than what is required
to succeed college level courses.

• Requires continuous student participation in developmental education classes if that student is
deficient in the academic areas of reading, writing, and/or mathematics.

• Requires all NON-EXEMPT (TSI Exemptions) incoming students to complete the mandatory TSI
Pre-Assessment Activity (PAA) and then to take the TSI Assessment test before registering for
classes.

Health History & Physical Exam Requirement
A health examination is required for pre-licensure BSN students entering the College of Nursing. Students
must present the CON Student Health Information Form to their health care provider who must sign and
date the document indicating that the student is medically cleared and able to meet the demands and
expectations of nursing school. This form must be uploaded in the CastleBranch portal.

Any pregnant student, or student planning to become pregnant, should contact their health care provider
to determine what, if any, additional precautions are needed based on their individual situation. It is the
responsibility of the student to communicate their needs to the Associate Dean for Student Affairs as
soon as possible in order for risk-reduction to begin when it can be most effective, and to determine if
additional modifications are necessary. While the university cannot mandate that the student notify it if
pregnant, the university strongly recommends that students do provide notification so appropriate steps
can be taken to ensure health of both parent and child. To communicate health circumstances or
additional information, please contact the Office of Student Affairs.

Insurance

Health

All nursing students are required to carry and maintain health insurance. Students who presume that they
are still covered on their parents’ policies are advised to confirm this with their insurance carriers. Some
policies delete coverage for family members who: reach a certain age, get married, no longer reside with
parents, etc. Knowing these conditions in advance will permit time to obtain coverage if needed. Under
optimal conditions for a healthy individual this could take a month or more.

Any enrolled Texas A&M University System student taking at least six (6) credit hours of classes is eligible
to enroll in the Blue Cross Blue Shield Academic HealthPlans. Students are encouraged to compare
various plans before purchasing a plan. The Health Insurance Marketplace is another way to find quality health coverage. With one application, students can learn if they can get lower costs based on income and are able to compare coverage options side-by-side. For more information on this plan, go to: HealthCare.gov. Students must submit proof of insurance coverage by the end of the first month of enrollment. The following benefits are strongly recommended to provide minimum coverage: in-patient hospital, medical/surgical, and physical medicine expenses as well as preventive and emergency care. Students are strongly encouraged to consider health and mental health insurance coverage in excess of the required minimum for several reasons, not the least of which is that you may become ill or injured and have bills that could present an unexpected burden.

Should students require medical treatment due to situations that may arise while in clinical rotations, i.e. needle stick or other incidences, neither the hospitals, clinical agencies or College of Nursing are responsible to cover any treatment that might be needed. Any medical charges incurred are the responsibility of the student.

**International Student Insurance Requirements**

As an enrollment requirement with the Texas A&M University, students who are not citizens or permanent residents of the United States will be required to have insurance to include medical evacuation and repatriation.

**Professional Liability**

All nursing majors in clinical settings must be covered by malpractice insurance. The cost for liability insurance will be the responsibility of the student (approximate cost each year is $20) and will be included in the student’s tuition and fee statement. The student policy covers only the work done as students during clinical courses and expires on the date of graduation. The policy does not cover students while employed in clinical agencies. Students employed in a health care setting must obtain a separate policy for liability coverage if required by that institution.

**Immunizations Policy**

As an academic health science center dedicated to educating health care professionals and biomedical researchers, the university has a responsibility to support the health of its students, faculty, and staff, as well as the people in the community with whom they come in contact. Toward this end, the College of Nursing follows immunization guidelines for students, faculty, and staff based on probability of exposure. These guidelines are consistent with the immunization requirements of Texas Administrative Code, Title 25, Health Services, Part 1, Chapter 97, Subchapter B1 and recommendations for adult immunizations from the Centers for Disease Control. Prior to registration for the first academic semester, students must give evidence of t immunizations as noted below.

Students with immune-compromised conditions or chronic diseases such as cardiovascular disease or diabetes mellitus are encouraged to consider obtaining pneumococcal vaccinations. All costs associated with obtaining immunizations are the sole responsibility of the student. Female students are advised that pregnancy is a contraindication to administration of certain vaccinations and should consult their physician for specific and additional information regarding vaccine administration.

*The Hepatitis A and B series must be initiated prior to enrollment in order to have all doses completed shortly after entry into clinical experiences. For Hepatitis B, a surface antibody serologic marker (blood titer) is required 6 weeks after receiving the last dose to ensure immunity or the series will have to be repeated. If vaccinations received in prior years, blood titer still required to ensure immunity. All students
must have a recent TB skin test or blood assay (QFT or TSPOT). See more details in the new student guide.

The College of Nursing may be asked to provide proof of immunizations to authorized parties as a prerequisite to participation in advanced clinical experiences at a particular site. In that event, students are requested to sign any release of student information request forms and are bound by their stipulations. Certain exemptions are allowed for required immunizations.

### Cardiopulmonary Resuscitation (CPR) Certification

Each student must obtain certification in Basic Life Support through the American Heart Association by the designated deadline prior to the first class day. This certification must be maintained throughout enrollment. If your initial training will expire during the course of your enrollment, you will be required to present proof to the Office of Student Affairs that you have recertified. This applies to all students, including those in the RN to BSN track. Students who have not submitted appropriate documentation by the designated deadline or upon request will be dropped from all classes for the subsequent semester.

### Criminal Background Checks Policy

Because health care providers are entrusted with the health, safety and welfare of patients, have access to controlled substances and confidential information, and operate in settings that require the exercise of good judgment and ethical behavior, criminal background checks are required. All nursing students must submit to and satisfactorily complete a criminal background review as a condition of admission. This requires that applicants be fingerprinted through a select agency.

The Texas Board of Nursing (BON) has initiated a process for nursing school applicants to complete a background check. Upon being fingerprinted, applicants will undergo both a Department of Public Safety and a Federal Bureau of Investigation check which will meet the requirements by the Board when the student prepares to apply for licensure in their final semester of nursing school. The applicant is responsible for the cost.
Regardless of what background checks you may have had in the past, you are still required to submit to this particular check.

A declaratory order is required by the Texas Board of Nursing (TBON) if there is any history related to criminal activity, alcohol/substance abuse or mental illness. See the section on “Declaratory Order of License Eligibility” in the handbook on page 70. More information may be obtained on the TBON website.

Procedure for Background Check

- The Office of Student Affairs (OSA) sends a roster of applicants to the BON.
- Within 5 business days, the BON issues a confirmation email to the Associate Dean for Student Affairs that the information has been entered.
- Applicants are then sent an email from the specified vendor (IdentoGO) to schedule fingerprinting.
- The fingerprinting company electronically submits the fingerprint scan to DPS to initiate the background check and transmits results directly to the BON.
- When received, the BON will do one of the following:
  - Mail a blue postcard directly to those students who have a clear check; OR
  - Correspond with students who have a rejected fingerprint scan and request another scan; OR
  - Correspond with students who have a positive background check and request they submit a petition for declaratory order (D.O.); OR
  - Correspond with students that the Operations Team at the BON cannot approve their DO petition and they must pay a review fee and their file will be transferred to the BON Enforcement Team.

Students must obtain BON clearance prior to enrollment in their first semester. Students must provide the OSA a copy of their blue postcard or their letter of clearance from the DO process as well as upload the documentation in the CastleBranch compliance portal. Students may be required by the BON to repeat a background check if any offenses occur while in the program.

All students are expected to obey federal, state, and local laws. Criminal activity that occurs while a student is enrolled in the program must be self-disclosed to the Associate Dean of Student Affairs within 72 hours of the offense. Depending on the circumstances of the charge, student access to clinical experiences may be impacted. Failure to disclose information may result in dismissal from the program.

Background check results will be kept in the student's confidential file by the Associate Dean for Student Affairs, not in the academic file kept by the Office of the Registrar. This information may only be accessed by the Associate Dean and the Dean. A student who has a break in their enrollment is required to complete a new background check. A break in enrollment is defined as non-enrollment of at least one semester.

All students must also have a background check completed through CastleBranch which provides a comprehensive check beyond the TBON process. The student is responsible for the cost of this screening. Instructions on the process is viewable in the CastleBranch portal. An offer of admission will not be final until the completion of the background check with results that are deemed favorable. Admission may be denied or rescinded based on the review. Students who refuse to submit to a background check may be dismissed from the program.
Chapter 4: Registration and Academic Status

Howdy Portal

**Howdy** is a web portal that provides applicants, students, faculty, and staff convenient access to Texas A&M University web services. **Howdy** is available by going to [https://howdy.tamu.edu/](https://howdy.tamu.edu/) and logging in using the assigned NetID.

**Howdy** allows students to view and update Texas A&M information, access TAMU Email, and a variety of other web links. Access includes, but is not limited to, the following resources.

**My Record** tab includes the following channels:
- Graduation
- Registration
  - Registration Time Assignment
  - Search Class Schedule
  - Add or Drop Classes
  - Registration Status (includes View Holds; Registration History)
  - View My Schedule
  - Final Exam Schedules
  - Change Class/KINE options
- Grades and Transcripts
  - Grades
  - Credit by Examination
  - Official Transcript (Order Official Transcript)
  - View Unofficial Transcript
  - View Holds
- My Information
  - Withhold Directory Information
  - View/Update Contact Information (includes Addresses/Phones; Emergency)
- Degree Evaluation
  - Application for Graduation
  - View Degree Evaluation
  - Excess Credit Hours Rule

**Academic Resources**

**My Finances** tab includes the following channels:
- Billing – Tuition & Fees
  - Pay My Tuition/Manage My Account
- Refunds
- Scholarships and Financial Aid

**Student Life** tab includes the following channels:
- Parking and Transportation
- Student Involvement
- Purchase Optional Services
- Employment and Internships
Registration Process

Registration is coordinated by the Office of the Registrar in cooperation with the CON. Tuition and fees are payable in full at the designated date (see the Student Business Services website for tuition due dates) unless arrangements for installment payments have been completed with the Office of Student Business Services.

To be eligible for registration, the student must have been officially admitted as a new student, must have satisfied all admission requirements and attended a new student conference, or must be a continuing student. Any student deemed ineligible due to an academic, administrative or disciplinary sanction or hold will be blocked from registration until all sanctions are removed. Only the unit that placed a hold may lift a hold.

If tuition and fees have not been collected by the due date, the Office of the Registrar will drop the student administratively from all classes.

Cancellation of Registration

A student may cancel registration after payment through the Office of the Registrar without financial penalty (with the exception of the Matriculation Fee) if the student does so before the official first class day. The student is regarded as never having registered. Note: students receiving Title IV financial aid must advise the Office of Financial Aid if they cancel their registration.

Late Registration

Late registration may be permitted only until the publicized late registration dates and upon payment of the appropriate late fee.

Verification of Enrollment

The Office of the Registrar will provide enrollment verification when requested. A link to Student Self Service Enrollment Verification is accessed via Howdy. Under the MyRecord tab, access the Verification of Enrollment link in the Records and Grades Channel.

Withdrawal

Any student considering withdrawal should first notify the Associate Dean for Student Affairs. Information on the process will be provided to the student. Students who drop to zero (0) hours in a semester or term must officially withdraw from the University. This process is initiated in the office of the student's academic dean. Students may withdraw by the deadline for Q-dropping (60th class day of a fall or spring semester; 15th class day of a 5-week summer term; 35th class day of a 10-week summer semester). After the deadline, deans may permit students to withdraw under non-academic extenuating circumstances. Withdrawals cannot be granted once final exams have begun.

Students are reminded that withdrawing from the University does not dismiss the repayment of student loans borrowed and may impact payment and grace periods. To learn more about repaying your student loans, please visit Federal Student Aid website and to find your current loan history, see the National Student Loan Data System. For questions, contact Scholarships & Financial Aid at (979) 845-3236.

Withdrawal instructions may be found on the Registrar’s website.

Undergraduate Registration for Graduate Level Coursework

A senior undergraduate student (one who has finished ½ of the nursing curriculum) with a cumulative grade point ratio of at least 3.0 or approval of his/her academic Dean or designee, is eligible to enroll in a graduate course and reserve it for graduate credit by filing a petition obtained from the student’s
undergraduate college and approved by the course instructor and the Associate Dean for Academic Affairs.

An academically superior undergraduate student with a cumulative grade point ratio of at least 3.25 or approval of his/her academic Dean or designee, is eligible to apply graduate credit hours toward his or her undergraduate degree program by filing a petition obtained from the student’s undergraduate college and approved by the course instructor and the Associate Dean for Academic Affairs.

Graduate credit hours used to meet the requirements for a baccalaureate degree may not be used to meet the requirements for a graduate degree.

**Leave of Absence (LOA)**

Students wishing to take a leave of absence should speak to their academic advisor, view information on the Texas A&M website and contact the Financial Aid Office.

Pregnancy, childbirth, false pregnancy, termination of pregnancy, and recovery are justification for a leave of absence for so long a period of time as is deemed medically necessary by the student’s physician, at the conclusion of which the student shall be reinstated to the status which she held when the leave began (Title IX Education Amendments, Section 106.40(b)(5)). Prompt and appropriate communication by the student is necessary to ensure appropriate accommodations are provided. While retroactive requests will be considered, making arrangements in advance is preferred, and requests that are untimely may be denied on that basis.

**Readmission**

Any student admitted to the College of Nursing who withdraws will be required to reapply. Contact your academic advisor for more information. Students admitted through the readmissions process may be required to successfully complete a Directed Independent Study course, i.e. NURS 385 or NURS 386 the semester before reentry if there has been a sequential break of time spent in the clinical setting of one semester or more in order to validate course content. In addition, students may be required to repeat or challenge upper division Nursing coursework. Readmission is dependent upon space availability.

**Request for Minor**

Speak to your advisor if requesting a minor on your academic record. The academic advisor in the major-granting department will add the minor to the record. In some cases, approval by the advisor of the minor-granting department is required before the minor is added by the advisor in the student’s major. Students declaring a minor are required to meet with their advisor before registration each semester.

**Request for Double Degree**

Speak to your advisor if requesting a double degree. According to Student Rule 14.4.2, a student currently enrolled at Texas A&M University who wishes to pursue a double degree **must receive approval from the departments, programs, or college(s) offering both the primary and secondary degree**, normally no later than the time the student reaches senior standing. The student must **meet the grade point requirements of both** the primary and secondary academic departments at the time of application. Students pursuing a double degree are required to meet with their advisor before registration each semester.
Chapter 5: Tuition, Fees & Financial Aid

Some of the additional expenses that a pre-licensure student will incur include, but are not limited to:

- Uniforms
- Shoes
- Textbooks
- Laptop Computer
- Supplies – i.e. stethoscope, penlight, bandage scissors
- Health Physical Exam
- Personal Health Insurance
- CPR Certification Fees
- Criminal Background Associated Fee(s)
- Drug Screen
- Required Immunizations

Billing Information

Tuition and fee statements are accessed and may be paid through the Howdy portal. Fees may be added to cover additional costs incurred for distance education courses to include: proctor services for exams, faculty travel costs to visit practicum sites, etc. For more tuition and billing information, contact Student Business Services or the Financial Aid Office. When mailing payment, please include the student's name and UIN number on the check to ensure accurate posting of payments.

Payments can be mailed to:
Texas A&M University
Student Business Services
6001 TAMU
College Station, TX 77843-6001

Payments can be mailed Priority or Overnight to:
Texas A&M University
Student Business Services-Cashier Office
750 Agronomy Rd. Suite 2801
College Station, TX 77843-6001

Please allow at least two additional business days for delivery to our office if using any US Postal Services. Remember that the payment must be posted to your account by the late after date regardless of the postmarked date.

College Station – Wire Transfer Information:
Wells Fargo
ABA#: 1210-0024-8

SWIFT#: WFBIUS6WFFX (for international wires)
Student’s Name and Student ID Number
ATTN: Cashiers
Physical Address - 3000 Briarcrest Drive, Bryan, TX 77803
Excess Credit Hour Policy

The State of Texas will not provide funds to state institutions of higher education for excess semester credit hours earned by a resident student. Since funding will not be provided by the State, and as permitted by State law, TAMU will charge tuition at the non-resident rate to all students that exceed the semester credit hour limit of their program.

Effective with students initially enrolling in the fall 1999 semester and subsequent terms, excess credit hours are those hours attempted by a resident undergraduate student that exceed by more than 45 hours the number of hours required for completion of the degree plan in which the student is enrolled. Effective with students initially enrolling in the fall 2006 semester and subsequent terms, excess credit hours are those hours attempted by a resident undergraduate student that exceed by more than 30 hours the number of hours required for completion of the degree program in which the student is enrolled.

The limitation on excess credit hours applies only to those undergraduate students who first enter higher education in the fall of 1999 and thereafter. For purposes of excess hours, resident undergraduate student includes a nonresident student who is permitted to pay resident tuition.

The semester credit hours counted toward the limitation include all hours attempted by the student except:

- Semester credit hours earned by the student before receiving a baccalaureate degree that has been previously awarded;
- Semester credit hours earned by the student by examination or other procedure by which credit is earned without registering for a course for which tuition is charge;
- Credit for remedial education courses, technical courses, workforce education courses funded according to contact hours, or other courses that would not generate academic credit that could be applied toward a degree program at Texas A&M University;
- Semester credit hours earned by the student at a private or out-of-state institution;
- Semester credit hours earned by the student before graduating from high school and used to satisfy high school graduation requirements (Effective June 2009)
- Hours not ineligible for formula funding.

For questions, you may contact the Office of the Registrar, State Policies Section at excesscredithours@tamu.edu or call (979) 845-1085.

6-Drop Rule (Legislation: SB 1231)

Under section 51.907 of the Texas Education Code, “an institution of higher education may not permit a student to drop more than six courses, including any course a transfer student has dropped at another institution of higher education.” This statute was enacted by the State of Texas in spring 2007 and applies to students who enroll in a public institution of higher education as first-time freshmen in fall 2007 or later. Any course that a student drops is counted toward the six-course limit if “(1) the student was able to drop the course without receiving a grade or incurring an academic penalty; (2) the student’s transcript indicates or will indicate that the student was enrolled in the course; and (3) the student is not dropping the course in order to withdraw from the institution.” This includes courses dropped at another 2 year or 4 year Texas public college or university.

Some exemptions for good cause could allow a student to drop a course without having it counted toward this limit, but it is the responsibility of the student to establish that good cause.
Possible causes may include:

- A severe illness or other debilitating condition that affects the student's ability to satisfactorily complete the course;
- the student's responsibility for the care of a sick, injured, or needy person if the provision of that care affects the student's ability to satisfactorily complete the course;
- the death of a person who is considered to be a member of the student's family or who is otherwise considered to have a sufficiently close relationship to the student that the person's death is considered to be a showing of good cause;
- the active duty service as a member of the Texas National Guard or the armed forces of the United States of either the student or a person who is considered to be a member of the student's family or who is otherwise considered to have a sufficiently close relationship to the student that the person's active military service is considered to be a showing of good cause;
- the change of the student's work schedule that is beyond the control of the student, and that affects the student's ability to satisfactorily complete the course; or other good cause as determined by the institution of higher education.

<table>
<thead>
<tr>
<th>Office of Student Financial Aid</th>
</tr>
</thead>
<tbody>
<tr>
<td>All financial aid is processed through the Texas A&amp;M University Office of Financial Aid for students enrolled in the College of Nursing. The office is located in the Pavilion on the 2nd floor. Or you may contact an advisor by email at <a href="mailto:financialaid@tamu.edu">financialaid@tamu.edu</a> or phone at (979) 845-3236.</td>
</tr>
</tbody>
</table>

Most types of aid are based upon financial need and satisfactory academic progress. Students who meet the eligibility requirements may renew most awards annually by submitting a Financial Aid Form before the designated priority date by demonstrating financial need. Students should visit the TAMU Scholarships and Financial Aid website for complete information. To be considered for Federal aid, students should complete the Free Application for Federal Student Aid (FAFSA).

<table>
<thead>
<tr>
<th>Q-Drops</th>
</tr>
</thead>
<tbody>
<tr>
<td>Undergraduate students will normally be permitted four Q-drops during their undergraduate studies; however: State law prohibits students from having more than six dropped courses from all state institutions attended during their undergraduate career if they entered higher education as a first-time enrolled freshman beginning the 2007 fall semester or after. Q-drops in one-hour courses will not count in the Texas A&amp;M limit of four but will be included in the State-mandated limit of six dropped courses. If a lecture and companion lab are dropped at the same time, this will count as one Q-drop rather than two. (Texas A&amp;M University Student Rule 1.16.4)</td>
</tr>
</tbody>
</table>

The University allows a student to drop a course without academic penalty through the 60th class day of a fall or spring semester, the 15th class day of summer term or the 35th class day of a 10-week summer semester. The symbol Q shall be placed on the academic record to indicate a drop without academic penalty. Courses Q-dropped must have approval of the student's Dean or designee or department as determined by the respective College. Nursing students in jeopardy of failing a course should speak to their instructor, their academic advisor and be aware of all program progression rules. See Chapter 6 for Program Progression Criteria.

<th>Scholarships</th>
</tr>
</thead>
<tbody>
<tr>
<td>The College of Nursing is committed to helping students fund their education. The CON has a limited number of internal scholarships available. Applications are available in April through the College of</td>
</tr>
</tbody>
</table>
Nursing [Financial Aid and Scholarships](#) webpage with a deadline in late May. Award recipients are notified by early July. To view Texas A&M University available scholarships, go to the [Scholarships](#) webpage. Civic groups, foundations and other organizations have additional scholarships available for nursing students.

**Scholarship Academic Progress Policy**

College of Nursing scholarships have minimum GPR requirements in order to be awarded as well as GPR requirements to maintain a scholarship. If recipients cumulative GPR falls below that scholarship standard, all future terms for the scholarship will be terminated. Scholarship recipients are required to provide an official transcript to the Office of Student Affairs in the College of Nursing at the end of each term.

If the recipient withdraws after funds have been applied to the bill, then the funds will remain applied. That semester will count against the student’s multi-year scholarship allotment. If the recipient is in good academic standing upon withdrawal, he/she will be reconsidered for the scholarship upon reenrollment, contingent on availability of funds.

If the recipient is on probation at the time of the withdrawal, the remaining scholarship eligibility will be terminated. Students are advised to contact Scholarships & Financial Aid to speak with a scholarship advisor if they plan to withdraw and later return to the University. Scholarship recipients must also be in good standing with the University. If the recipient is placed on disciplinary probation, they lose all remaining scholarship eligibility.

Students who do not meet the Scholarship Academic Progress Policy requirements have the right to appeal and provide information about extenuating circumstances that may have hindered their progress. Appeals are reviewed on a case-by-case basis.
Chapter 6: Academic Rules, Policies and Procedures

"An Aggie does not lie, cheat or steal, or tolerate those who do."

Aggie Code of Honor
Texas A&M University is dedicated to the discovery, development, communication and application of knowledge in a wide range of academic and professional fields and assumes as its historic trust the maintenance of freedom of inquiry and an intellectual environment nurturing the human mind and spirit. Living in accordance with the Aggie Code of Honor is critical to these ideals, to the goal of assuming a place of preeminence in higher education, and to the development of the whole student.

The Aggie Honor System Office (AHSO) administers the Texas A&M University Honor System. As such, it is the central office responsible for maintaining records and coordinating communication, prevention, training, remediation, and adjudication efforts for the Texas A&M University Honor System. Additionally, it shall provide assistance to members of the University Community when questions or concerns arise pertaining to academic misconduct. It oversees the operations and functioning of the Honor Council, a body of students and faculty established to hear and adjudicate honor cases. Instructors as well as students may report a violation to the AHSO. View Student Rule 20 for complete information.

Academic Integrity
Academic integrity is an essential force in the academic life of a university. It enhances the quality of education and celebrates the genuine achievements of others. It is, without reservation, a responsibility of all members of the Texas A&M University Community to actively promote academic integrity. Apathy or acquiescence in the presence of academic dishonesty is not a neutral act -- failure to confront and deter it will reinforce, perpetuate, and enlarge the scope of such misconduct. As such, a primary responsibility assumed by Texas A&M students is to promote the ideals of the Aggie Code of Honor. Various methods of encouraging integrity exist, such as setting an example for new students, education through student organizations, and student-to-student moral suasion. Students have the responsibility to confront their peers engaging in compromising situations, and if unsuccessful, to report the matter to the Aggie Honor System Office. Self-reporting is encouraged and may be considered a mitigating circumstance in the sanctioning phase of a particular case.

Instructors are expected to take proactive steps to promote academic integrity. Instructors and staff share in the responsibility and authority to challenge and make known acts that violate the Aggie Code of Honor. Additionally, instructors are expected to adhere to the policy pertaining to the reporting and adjudication of violations of the Aggie Code of Honor. Initiating formal procedures is a necessary and obligatory component of this shared responsibility. Generally, instructors have the option of handling a violation of academic integrity autonomously or referring it to the Honor Council. A second violation will always go before the Honor Council. For more information on the Honor Council process, see Student Rule 20.

Collaboration and sharing information are characteristics of academic communities. These become violations when they involve dishonesty or are used in ways that give a student an unfair advantage. Instructors shall make clear to students their expectations about collaboration and information sharing. Students should seek clarification when in doubt. While Texas A&M values and affirms all cultures, it is important to recognize that only one standard of academic integrity will be tolerated; this is the Aggie Code of Honor.
If the alleged misconduct meets the definition of "misconduct in research or scholarship" under System Regulation 15.99.03 - Ethics in Research and Scholarship and relates to federally funded research, either by an active federal research project or the use of data that was compiled in whole or in part with federal funds the procedures set out 15.99.03 and University Rule 15.99.03.M1 - Responsible Conduct in Research and Scholarship will apply.

Violations of academic rules are likely to violate the Code of Conduct for Nurses as well. It is not uncommon for violations of an academic nature to also be reviewed for possible disciplinary sanctions (see chapter 7).

**Grading Policies**

A four-point (4.0) grading system is utilized in the College of Nursing. The grading scale is as follows:

<table>
<thead>
<tr>
<th>Grade</th>
<th>Description</th>
<th>Grade Points per Credit Hour</th>
<th>Grade Range</th>
</tr>
</thead>
<tbody>
<tr>
<td>A</td>
<td>Excellent</td>
<td>Four</td>
<td>90 - 100</td>
</tr>
<tr>
<td>B</td>
<td>Good</td>
<td>Three</td>
<td>80 - 89</td>
</tr>
<tr>
<td>C</td>
<td>Fair</td>
<td>Two</td>
<td>70 - 79</td>
</tr>
<tr>
<td>D</td>
<td>Poor</td>
<td>One</td>
<td>60 - 69</td>
</tr>
<tr>
<td>F</td>
<td>Failure</td>
<td>No grade points</td>
<td>Below 60</td>
</tr>
<tr>
<td>I</td>
<td>Incomplete</td>
<td>No grade points</td>
<td></td>
</tr>
<tr>
<td>NG</td>
<td>No Grade</td>
<td>Grade removed from record, no grade points, hours not included in GPR</td>
<td></td>
</tr>
<tr>
<td>±Q</td>
<td>Course dropped with no penalty, no grade points, hours not included in GPA</td>
<td></td>
<td></td>
</tr>
<tr>
<td>S</td>
<td>Satisfactory (C or above)</td>
<td>No grade points, hours not included in GPR</td>
<td></td>
</tr>
<tr>
<td>U</td>
<td>Unsatisfactory (D or F)</td>
<td>No grade points, hours included in GPR</td>
<td></td>
</tr>
<tr>
<td>X</td>
<td>No grade submitted</td>
<td>No grade points, hours not included in GPR</td>
<td></td>
</tr>
<tr>
<td>W</td>
<td>Withdraw</td>
<td>No grade points, hours not included in GPR</td>
<td></td>
</tr>
<tr>
<td>F*</td>
<td>Aggie Honor Code violation, no grade points, hours included in the GPR</td>
<td></td>
<td></td>
</tr>
</tbody>
</table>

Minimum academic requirements for retention in the program are a grade of “C” in all nursing courses. A grade of “D” is considered a failing grade in the College of Nursing. A student will be given only one opportunity to repeat a course during their academic career at the College. If a student receives two failing grades, they will not be allowed to continue in the program. Students who are unsuccessful in meeting clinical objectives of a clinical course will receive a final grade of “F”, regardless of what the current grade is for the didactic portion of the course.
**Grade Rounding Policy**

- All graded assignments and exams will be calculated to the hundredth (i.e. two decimal points).
- No grades will be rounded including final exam averages and final course grades.
- For courses in which it is required to achieve an exam average of 70% or better in order to pass the course, students must have an average exam score of greater or equal to 70% on unit exams and comprehensive final exam (if given) to pass the course. The average of 70% on exams must be achieved BEFORE the remaining content percentages are factored into the final course grade. If an exam average of 70% is not achieved, the final grade earned for the course will reflect the average of exam scores.

**Example:**

<table>
<thead>
<tr>
<th>Exam Grades:</th>
<th></th>
</tr>
</thead>
<tbody>
<tr>
<td>1</td>
<td>68.25</td>
</tr>
<tr>
<td>2</td>
<td>70.56</td>
</tr>
<tr>
<td>3</td>
<td>70.50</td>
</tr>
</tbody>
</table>

Exam Average: 69.77 Final Grade = D

**Rules for Program Progression**

**Good Academic Standing -**

**Traditional BSN, Second Degree BSN and RN-BSN tracks**

Good academic standing is defined as having a minimum grade point average of a 2.0 (on a 4.0 scale), maintaining a minimum grade of “C” in all courses, and non-probationary status. Students must be in good academic standing in order to progress in the program.

All Nursing students have the obligation to make satisfactory progress toward completion of all degree requirements. A minimum standard to measure degree progress requires satisfactory completion of 75 percent of attempted course credit hours each academic year.

**Academic Progression Criteria**

Rules for program progression are as follows:

- Students must meet all co-requisites or prerequisites to progress in the program.
- Some nursing courses are sequential and may not be taken out of sequence. Progression into the next semester’s nursing courses is contingent upon the successful completion (grade of C or better) of all previous semester courses.
- Grades of D, F, or U are not acceptable in nursing courses.
- Students who receive a grade of D, F or U in any course in any given semester will be automatically placed on probation and notified in writing of probation status. The student will remain on probation until the course is repeated with a C or better. The course can only be taken through the Texas A&M CON unless approved by the Associate Dean for Academic Affairs. A second attempt in a course cannot be “Q” dropped. The grade earned in a second attempt will stand.
- Students who earn a grade of D or F upon repetition of a nursing course or have two nursing course failures are ineligible to continue enrollment in the CON.
- Students are allowed to repeat only one failed course during their enrollment in the program. Spaces in clinical courses are tightly controlled by both accreditation and clinical agency policies, so permission to retake/repeat a course will be granted on a space-available basis. A student who is out of sequence in the curriculum (whether due to illness, course failure, or other reasons)
cannot be assured of a space in subsequent courses, though every effort will be made to accommodate him/her.

- If a student repeats a course which he/she has failed in the CON, the official grade for the degree audit is the last one earned. See Student Rule 10 regarding calculation of the cumulative GPA.
- If there will be a sequential break of time spent in the clinical setting of one semester or more, then the student may be required to enroll and successfully complete a zero-credit hour course before progressing in the curriculum.
- Students must complete the program to which they enrolled in three (3) consecutive years or six (6) long semesters. Exceptions for extenuating circumstances (i.e. serious illness, pregnancy, etc.) will be considered.

In addition to obtaining grades of C or above in all nursing courses, students must demonstrate their ability to deliver safe care to patients at all times. Failure to provide safe patient care may result in immediate withdrawal from the course and, potentially, dismissal from the CON. See Chapter 7: Clinical Expectations for more details.

Q Drop Related to Clinical Performance

Students who fail the clinical portion of a course for safety, competence, or professionalism concerns may not “Q” drop or withdraw from that clinical course. They will receive a grade “F” regardless of what the current grade is for the didactic portion of the course. In addition, students must withdraw and/or may not enroll in any other clinical courses until the situation has been resolved or the student has been successfully remediated.

Students who are not meeting the objectives for the clinical portion of a clinical course for reasons other than the three concerns noted above may opt to ‘Q’ drop (a drop without academic penalty) before the designated deadline.

In both instances, student may continue attending the didactic portion of class, however, they will not be allowed to take exams, submit assignments, earn credit or a grade for the course.

Academic Dismissal

Students will not be permitted to continue in the nursing program or apply for readmission if they: 1) receive a grade of “D” or “F” in more than one course, 2) receive any combination of grades of “D” or “F” on two attempts of the same course, or 3) receive notice of dismissal from the program by the Associate Dean for Academic Affairs or the Associate Dean for Student Affairs for failure to adhere to College of Nursing policy. For grade disputes, see more information later in this chapter.

A dismissed student will receive written notification from the Associate Dean for Academic Affairs. The notice will include procedures for appeal, and notice of loss of registration, financial aid, etc. After receipt of the dismissal, a student may appeal this decision within five (5) university business days to the Associate Dean for Academic Affairs.

The basis for an appeal based upon grades (number 1 & 2 above) are limited to the following:

- Substantial new evidence not available at the time of any prior hearing that is sufficient to alter a decision or other relevant facts not brought about in the original hearing
- A violation of due process rights
- Sanction not commensurate with the violation
- Finding of responsibility is inconsistent with the facts present in the original hearing
The basis for an appeal based upon dismissal for failure to adhere to College of Nursing policy (number 3 above) will follow the procedures found in Chapter 8: Student Rules.

Dismissed students are expected to make arrangements with the Office of Student Affairs to begin the formal withdrawal process in a timely manner. Dismissed students will be required to turn in any equipment or materials belonging to the College as well as any College ID badges and parking pass. See Chapter 7 for clinical expectations related to dismissal for patient safety concerns.

Incomplete “I” Grade Policy

An incomplete grade (“I”) may be assigned when there is unfinished work and the student is in good academic standing (at least a “C” grade) in the course. A student who requests an incomplete must initiate contact with the faculty member. This discussion will be converted to a written Incomplete Contract and signed before the last class meeting of the semester in which the “I” will be recorded.

The instructor shall give this grade only when the deficiency is due to an authorized absence or other cause beyond the control of the student. When an instructor reports an incomplete grade to the registrar, he or she will fill out an “Incomplete Grade Report,” which is filed with the Associate Dean for Student Affairs and the Office of the Registrar. Copies should be provided to the student and to the student’s academic dean(s). This report includes (1) a statement of the instructor’s reason for awarding the incomplete grade and

(2) a statement concerning the remaining work to be completed before the last day of scheduled classes of the next fall or spring semester in which the student enrolls in the university unless the student’s academic Dean or designee, with the consent of the instructor grants an extension of time for good reason. The student and the faculty member should discuss a plan, including a schedule, for completing the remaining work prior to the conferral of an “I”.

A grade of incomplete will be marked on the grade roster at the end of the term. It is the responsibility of the instructor to initiate and complete a Change of Grade form. An “I” must be completed before the end of the subsequent semester in which the “I” was given. The grade of “I” will automatically become an “F” if not removed within the prescribed time limit; however, an extension may be requested by the instructor when the Request for an Incomplete Grade form is submitted with the submission of grades, provided that a definitive time frame for completion is presented. An extension will be granted only for circumstances beyond the control of the student.

Grade Disputes

The instructor of the class is the primary authority with respect to a student’s proficiency and final grade in the course as noted in Student Rule 48. Grade Disputes. A student who believes that his or her final grade reflects a capricious, arbitrary or prejudiced academic evaluation must follow the resolution procedures and deadlines as described in Student Rule 57 Undergraduate Academic Appeals Panel.
Chapter 7: Classroom & Clinical Expectations

Evaluation of Faculty, Courses and Programs

Student participation in faculty, course, and program evaluations is both the student’s right and responsibility. The process of evaluation is viewed as the student’s opportunity for input into curriculum development and the assessment of faculty effectiveness and student learning needs. Students are therefore encouraged to participate in all evaluations which will be done during the course of each semester. Evaluations are anonymous.

Dress Code/Uniforms Rules

The CON expects students to reflect professionalism and maintain high standards of appearance and grooming in the clinical setting as well as in the classroom. Clinical faculty will have final judgment on the appropriateness of student attire and corrective action for dress code violations.

Traditional/Second Degree B.S.N. Student Dress Code:

As students in a professional program, it is important to dress as professionals. We often have unexpected visitors to the College and wish to represent it well. The following items are not deemed appropriate in the classroom:

- clothing that shows the mid-drift or low cut tops
- halter tops or tube tops; spaghetti straps tops
- mini-skirts or shorts above the mid-thigh
- see-through clothing
- clothing with distasteful or crude lettering or messages

Uniforms must be standard nursing scrubs with sleeves (style, color, and vendor to be designated by CON). CID Resources is the authorized vendor for the College-required uniforms. Uniforms from other companies are not allowed. Uniforms may be purchased through the Texas A&M Bookstore. Additional uniforms may be purchased at any time during your enrollment through the Texas A&M Bookstore. Students will have 2 sets of uniforms and faculty will indicate which you should wear depending on the clinical setting and/or experience. Instructors will designate which uniform to wear for each clinical experience.

The 2 uniform sets are:
1. White scrub top with maroon scrub pant
2. Maroon scrub top with maroon scrub pant

It is recommended that you buy sizes that will allow you to freely move about, bend, and reach as this will be required for your work in clinical settings. Students will frequently be in a clinical setting 2 or more days each week so should consider purchasing 2 or more of each item. Lab coats are not allowed in clinical facilities due to the possibility of transferring harmful substances or agents. Students may wear a long sleeve solid white t-shirt under the uniform or the approved optional uniform item (snap front jacket) during cooler times of the year or as needed. Make sure to wash the maroon colored garments separately from other colored items as the colors may bleed if not washed appropriately.
Students are required to wear their student identification badge with picture during all clinical experiences. The badge must be worn in plain sight. Names on the badges must not be covered up with tape, pins, stickers, etc.

The student must wear a name badge and all white duty shoes (leather or leather-like, closed toe and closed heels).

All students are also required to purchase a TAMHSC College of Nursing polo shirt (style to be designated by CON). Optional uniform items include. The CON polo shirt is worn when visiting clients in the community or collecting data on the hospital or agency unit for next-day clinical assignments. Students must wear the polo shirt with black or khaki slacks or skirt unless otherwise instructed by faulty. No shorts or jeans are to be worn when in the hospital or in any clinical agency. Shoes should be closed-toed with flat or low-heels (1 ½ inches or less).Tennis shoes or flip flops are not acceptable community attire. Name badges are required at all times when students are in a clinical setting. Students are advised to purchase at least two uniforms and one CON polo shirt. Strict adherence to the dress code is expected.

The following rules apply to the clinical setting (unless otherwise instructed by your professors). NOTE: Mental Health Nursing will be more prescriptive in the dress code for these clinical rotations.

**Shoes**
- All white shoes, impermeable (non-mesh), leather or leather-like, closed toe and closed heels, white soles and white laces

**Jewelry**
- Watches must be plain, simple timepieces with no jewels or stones; a watch with a second hand is necessary; digital watches are acceptable if they allow for counting seconds
- A plain wedding band (no stones) is allowed
- No more than two (2) studs or button style earrings per earlobe
- No other pierced jewelry on any other visible part of the body (other than the ear) is allowed
- No necklaces are allowed

**Hair**
- Hair is to be clean, neat, and well groomed
- Shoulder length hair or longer must be pulled back behind the ears and secured up completely off the neck
- Hair should be kept off the face and in no way obscure vision
- Hair must be a natural color (i.e., a shade of black, brown, red, gray, or blonde)

**Nails**
- Nails are to be clean, groomed, manicured and cut to the tip of the finger
- Artificial nails are prohibited
- No nail polish may be worn
- No fingernail jewelry may be worn; no stenciling or glitter is permitted on nails

**Other**
- Stethoscope covers are not allowed
- Fleece sweaters sold by CON Class Council are not acceptable in any clinical setting
- Ankle socks or stockings must be worn with uniform shoes
- Makeup is to be subdued
- Personal hygiene including oral care, daily showering/bathing, and the use of deodorant is expected
- No perfume or scented lotions are to be worn
- Gum chewing is not permitted
• Tattoos must be covered and not visible
• Long-sleeved white t-shirt under the uniform is allowed to cover arm/wrist tattoos or during cooler times of the year as needed in units
• Long sleeved white t-shirt under the uniform is allowed to cover tattoos or during cooler times of the year or as needed in units
• Sweaters or other outer garments are not permitted in patient areas; only lab coats or jackets provided by the uniform company are allowed over the scrubs/uniform
• Patterned or colored undergarments should not be visible; white or nude color recommended
• Headbands should be plain, subtle, modest, unadorned and unembellished; any solid color is acceptable with white, black or maroon preferred
• Males should be cleanly shaven and/or beards neatly trimmed

Students may not wear a uniform with the College of Nursing logo and student name tag while working as an employee of any agency, observing or volunteering in a healthcare capacity. The advisor or another College of Nursing faculty member must be present at all times at special events that might include or lead to nursing interventions, i.e. patient assessment or patient care. Teaching activities may be provided in community settings without an advisor or CON faculty present if approved by the advisor. Advisors will complete any required trainings through the Office of Student Activities.

Many agencies have dress codes that exceed College of Nursing uniform requirements. Students and faculty will comply with the dress code of the agency in which clinical learning activities are scheduled. Dress code guidelines will be addressed further during clinical orientation. Strict adherence to the dress code is expected.

**RN-BSN Dress Code:**
When RN-BSN students’ practicum experiences are in acute care facilities,

- Wear business casual clothes with clean and pressed white lab coats. The lab coat must not have any other identifiers on it. Covering identifiers with tape is not acceptable.
- Wear the TAMHSC CON name tags at all times in practicum experiences.
- Wear only close-toed shoes in the acute care setting.

While in case management or leadership experiences, students may opt to wear scrubs with a lab coat or street clothes with a lab coat. Lab coats should be plain and not reflect affiliation with another facility/institution/employer. Scrubs must be maroon in color. These requirements apply to NURS 464, 466, 465, and 467.

In the community, RN-BSN students are expected to wear business casual with the CON name badge. This situation occurs during community settings with family experiences and the community health project. These requirements apply to 464 Health Promotion and 466 Community Health and 467 Leadership and Management.

---

**Classroom and Lab Etiquette**
Information contained in lectures may not be published or quoted without giving proper identity and credit to the lecturer.
Electronic Devices in the Classroom

The tone of the classroom has a significant impact on the educational environment. The use of electronic devices can be distracting therefore students are expected to follow College of Nursing guidelines to enhance the quality of the classroom experience.

- No taping, filming, or photography in classes without prior permission (whether by camera, cell phone, or other means). Cell phones should be turned off unless the device is being used for classroom activities or to access approved nursing software.
- Laptops are to be used for classroom activities only. If a student is found to be using their computer for other purposes, the student may lose the privilege of bringing a laptop to class for the remainder of the semester (with the exception of test days).
- If any use of electronic devices disrupts other students or the faculty, you may be asked to turn off the device, surrender the device until the end of the class or leave the classroom.
- Activities such as texting, checking emails, use of social media or online activities that are not involved in classroom activities or any other distracting behavior are not allowed during class.

Intellectual Property

All course materials developed by the faculty and posted within a course are the intellectual property of the individual faculty and can only be used for the purpose of participating in the course in which they are posted, unless express consent is given by the faculty member. Any posting of course materials outside the enrolled course violates the intellectual property rights of faculty. The student is referred to the Academic Integrity and Plagiarism: Intellectual Property and Fair Use policy, available at http://library.tamu.edu/services/library_tutorials/academic_integrity/index.html. Netiquette & Discussion Board Expectations Guidelines for acceptable online classroom behavior are posted in the learning management system course syllabus. Students will be expected to adhere to rules for acceptable online behavior and communication.

Expectations for course discussion board posts and grading criteria are posted in each course learning management system website. Standard grading rubric are used throughout the graduate nursing program, although frequency and subject matter will differ per course.

Exam Guidelines & Etiquette

Exams are given by computer or occasionally written tests. Be prepared with appropriate supplies for either. It is the expectation of the College that every student has a computer capable of running the required software for all assignments, exams and quizzes. It is the responsibility of the student to download and install the software as directed. Refer to the syllabus provided with each CON course for detailed exam guidelines.

Civility Statement

The Texas A&M College of Nursing is committed to creating and maintaining a positive learning environment consistent with the American Nurses Association’s Code of Ethics which states nurses are required to “create an ethical environment and culture of civility and kindness, treating colleagues, coworkers, employees, students, and others with dignity and respect” (ANA, 2015, p. 4). To support an environment for positive learning any disregard for the effects of one’s actions on others, bullying, harassment, intimidation, manipulation, threats, or violence are always morally unacceptable behaviors (p.20).
Each course is geared at helping all students learn to think and act like a nurse. Each student toward the end is expected to demonstrate ethical and professional behavior in all aspects of the course. To assist in a healthy and respectful learning environment, we ask that students follow the protocols below:

For online classes:
- Use proper netiquette. (Netiquette is a combination of words “network” and “etiquette”)
- Be respectful of each other and your instructor.
- Address each person individually when you create responses. For example, when you respond, be friendly, begin your writing with a greeting, i.e. howdy or hello.
- Praise and support your fellow Aggies

For face to face classes:
- Be on time to class and attend class regularly.
- Refrain from unsavory or unprofessional use of language.
- Silence your cell phone during class; refrain from texting during class.
- Keep chit-chat to a minimum in class to avoid distraction to others.
- Treat your colleagues, the agency staff, and the faculty with respect.
- Demonstrate ethical and professional behavior in all aspects of this course.

In addition, Texas A&M University and the College of Nursing expect all students to abide by the Aggie Honor Code and conduct themselves as an Aggie.

**Clinical Expectations**

NOTE: Clinical settings include: skills lab, simulation encounters with and without standardized patients, virtual simulation, hospitals, clinics, and other patient care settings, as well as general community based encounters. All clinical experiences are chosen to offer valuable learning opportunities.

**Patient Safety**

Faculty who teach clinical nursing courses are responsible for guiding students in the development of professional nursing skills and values. Clinical objectives will be clearly defined for students and requirements stated in the course syllabi as well as information on how the clinical grade will be determined.

Students will provide nursing care to clients under the facilitation of clinical faculty and supervision of an assigned registered nurse. Students are expected to participate in all nursing care activities that the student has been successful in checking off in the skills lab. Students are held responsible for all nursing skills learned from previous courses. When providing clinical care, nursing students are held to the same standards as the RN (i.e. what would the reasonably prudent nurse with like education and experience do). Students will NOT check or otherwise be held responsible for the administration of blood or blood products.

Patients should be able to expect safe, quality care. Faculty may request a student be removed from the clinical setting if the level of performance does not meet an acceptable level of competence. Reasons for Clinical Setting Dismissal may include but are not limited to:

1. Lack of preparation for clinical
2. Unsafe practice
3. Unprofessional behavior, conduct, or dress
4. Breach of confidentiality, lack of patient identification prior to care or medication administration
5. Medication administration without appropriate preparation, supervision, or technique
6. Violation of the Texas Nurse practice Act of ANA Code for Nurses
7. Endangerment of patient rights and/or safety.

Clinical setting dismissal for any of the reasons noted above may constitute immediate clinical failure for the semester. If a student is removed from one clinical setting due to concerns about professionalism, safety or competence, he/she will not be allowed to continue in other course clinical rotations until the situation has been resolved. Legal and ethical grounds exist for dismissal of a student who is clinically deficient. Any unsafe or unprofessional act that leads to, or could lead to, injury of a patient may result in immediate removal from the clinical setting. Consequences may range from additional written paperwork up to dismissal from the nursing program.

**Clinical Course Concerns**

Students may not be allowed to continue in a clinical course if the following situations arise:

1) Not meeting clinical objectives in a timely manner.

Students who are not meeting the objectives for the clinical portion of a clinical course may opt to ‘Q’ drop (a drop without academic penalty) before the designated deadline. They will be allowed to continue attending the didactic portion of class, however, they will not be allowed to take exams, submit assignments, earn credit or a grade for the course.

2) Not meeting expectations for patient safety, competence or professionalism as expected for the level of education and experience to which they have attained through the nursing curriculum.

Students who fail the clinical portion of a course for safety, competence, or professionalism concerns may not “Q” drop or withdraw from that clinical course. They will receive a grade of “F” for the course. They may continue attending the didactic portion of class but will not be allowed to take exams, submit assignments, or earn credit for the course. In addition, students must withdraw and/or may not enroll in any other clinical courses until the situation has been resolved or the student has been successfully remediated.

Practice is determined to be unsafe if, due to student knowledge deficits, lack of effective clinical decision making, failure to appropriately monitor patient’s condition and respond appropriately (clinician notification and direct care actions), or inappropriate communication, a patient is harmed or very likely to be at risk for harm. Unsafe practice is also related to the appropriate level of supervision that can be provided to support student learning and practice. Students in more advanced stages of their curriculum at both the undergraduate and master’s level are expected to be able to practice safely with decreasing levels of direct faculty and preceptor supervision. Other factors contributing to an assessment of unsafe practice include falsified documentation, failure to communicate truthfully and aggressive/non-collaborative interpersonal communications patterns.

Errors related to patient care are to be reported to clinical faculty and students will complete a report detailing all aspects of the incident. Severity of errors will be analyzed by faculty to determine students’ progression in the course. Safety is a critical element on all clinical evaluation tools.

**Attendance**

Students are expected to attend all clinical and/or lab sessions including classes in the Simulation Lab. Failure to appear for scheduled clinical sessions, coming unprepared, and tardiness are viewed as
unprofessional behavior. The course syllabus will provide information regarding the attendance policy for each course.

Students are expected to be present for change of shift report. First tardy may result in an Unsafe/Unprofessional Report from your clinical instructor. Second tardy will result in an Unsafe/Unprofessional Report from your clinical instructor. The third tardy will result in an Unsafe/Unprofessional Report in addition to action as determined by the clinical instructor and may lead to an unexcused clinical absence. Clinical paperwork (clinical prep forms, concept maps, etc.) is due at the time designated by the clinical faculty. Failure to have appropriate paperwork to present to the clinical instructor may result in additional assignments, being sent home for the day, rescheduling of clinical time, and/or receiving an Unsafe/Unprofessional Behavior Report.

Violation of confidentiality, including photocopying patient documents, taking photographs, removing documents from the hospital or postings on internet social networking sites will be subject to disciplinary action (Refer to HIPAA policy).

Loss of the hospital issued ID and room access badges will result in a $25 replacement fee. Use of another student’s ID badge is unprofessional behavior and will not be allowed.

University ID badges must be worn at all times in the clinical setting. Any student who forgets their ID badge will be dismissed from clinical until they present with proper identification. Failure to return to clinical will result in a clinical failure for the day.

Students are expected to meet clinical expectations as outlined in the course syllabi specific to each course.

Policy for Clinical Concerns

Faculty may complete an Unsafe/Unprofessional Behavior Report (see copy of report in the appendix of this handbook) should students fail to meet expectations in either course or clinical settings. These require a meeting with the professor and discussion regarding the incident and the report is submitted to the Associate Dean for Student Affairs to be filed in the student’s record. Note this is not a part of the student’s permanent academic record but may be considered should additional disciplinary action be required. Informative counselings that result from an unsafe/unprofessional report are cumulative. After 3 have occurred (may be from more than one course or semester), the 4th occurrence will result in a disciplinary meeting with the Associate Dean for Academic Affairs.

Complete honesty with the clinical instructor is an expectation of every student. Dishonesty shall be defined to include withholding information and/or failing to immediately disclose appropriate information pertaining to the client and/or clinical scenario to the faculty member and/or the assigned staff nurse. Students who are found to be practicing in a dishonest manner will be asked to leave the clinical setting and may receive a failing grade in the course and dismissal from the nursing program. In the event that a student is dismissed from clinical, no make-up will be provided. An Unsafe/Unsatisfactory Behaviors Form will be completed for the day.

If a student violates any of the standards on the clinical evaluation form the faculty will:

- Complete the Unsafe/Unprofessional Behavior Report;
- If it is an unsafe behavior, contact the Associate Dean as soon as possible;
- Make an appointment prior to the next clinical day to meet with the student to counsel them and provide them with an action plan for remediation;
- Attach a copy of the clinical evaluation tool with all objectives that were not met identified with an Unsatisfactory marking;
➔ Submit the original form to the Associate Dean for Student Affairs for placement in the student file;
➔ Provide copies to the student, the coordinator of the course, and the Assistant Dean for Academic Studies.

**Reporting of Illness & Absence**

It is the responsibility of a student to promptly inform his/her clinical instructor in the event of an absence or illness. If students in a clinical course cannot reach their faculty member, the student should call the nurse in charge of the unit to which she/he is assigned at least one hour (or earlier, if possible) before the scheduled assignment.

Clinical absences, unless a true emergency or pre-arranged with clinical faculty approval, are not acceptable. In the event of a no call and no show, the absence will result in a conference with clinical faculty, course coordinator, and the Assistant Dean for Academic Studies.

**HIPAA Policy**

All educational experiences in the College of Nursing abide by Health Insurance Portability and Accountability Act of 1996 (HIPAA) regulations. In addition, the College adheres to the new national privacy standards issued by the U.S. Department of Health and Human Services that went into effect on February 17, 2010. HIPAA standards address the use and disclosure of individuals’ health information as well as standards for individuals' privacy rights to understand and to control how their health information is used. A major goal of this act is to assure that individuals’ health information is properly protected while allowing the flow of health information needed to provide and promote high quality health care and to protect the public’s health and well-being.

Students are provided orientations in the classroom and clinical settings regarding HIPAA regulations in addition to completing online modules covering these regulations prior to entering into a patient care setting. It is the legal and ethical responsibility of CON faculty, staff, and students to use, protect, and preserve personal and confidential patient information in accordance with state and federal laws as well as HSC policies.

If an unauthorized use or disclosure of public health information has occurred, this incident must be reported immediately to the supervisor (i.e. a CON student notifies CON faculty instructor, CON staff notifies CON supervisor, CON faculty notifies Associate Dean for Academic Affairs). The supervisor initiates an investigation, completes an incident report with findings and outcomes, notifies the clinical site and CON Associate Dean for Academic Affairs, and submits the report to CON Dean for review.

**Needlestick Guidelines**

The College of Nursing endorses standard precautions as the single best strategy to reduce the risk of bloodborne pathogen (BBP) exposure. Healthcare personnel are at risk for occupational exposure to bloodborne pathogens, including hepatitis B virus (HBV), hepatitis C virus (HCV), and human immunodeficiency virus (HIV). Exposures occur through needlesticks or cuts from other sharp instruments contaminated with an infected patient's blood or through contact of the eye, nose, mouth, or skin with a patient’s blood. Adequate barrier protection (e.g., gloves, safety glasses, mask) when performing any activities is needed where the potential exists for BBP exposure. Familiarity with and use of safety devices on needles, syringes, and intravenous equipment can also reduce the risk of accidental BBP exposure.
HBV
All healthcare personnel who have a reasonable chance of exposure to blood or body fluids should receive hepatitis B vaccine. Healthcare workers should be tested 1-2 months after the vaccine series is complete to make sure that vaccination has provided immunity to HBV infection. Hepatitis B immune globulin (HBIG) alone or in combination with vaccine (if not previously vaccinated) is effective in preventing HBV infection after an exposure.

HCV
There is no vaccine against hepatitis C and no treatment after an exposure that will prevent infection. Neither immune globulin nor antiviral therapy is recommended after exposure. For these reasons, following recommended infection control practices to prevent percutaneous injuries is imperative. Center for Disease Control (CDC) Guidelines may be found here.

HIV
There is no vaccine against HIV. However, results from a small number of studies suggest that the use of some antiretroviral drugs after certain occupational exposures may reduce the chance of HIV transmission. Postexposure prophylaxis (PEP) is recommended for certain occupational exposures that pose a risk of transmission.

Students who have been exposed to needlesticks or to potentially infectious blood or blood products or body fluids should be evaluated and have treatment initiated within 2 hours according to established criteria that conform to federal and state law and Center for Disease Control standards. Any expenses incurred by treatment are the sole responsibility of the student.

First Aid for percutaneous and mucocutaneous exposures:
1. Needlesticks or puncture wounds: express blood from wound, scrub area vigorously with soap and water for 5 minutes.
2. Oral mucous membranes: rinse area several times with oxygenating agent such as 50% strength Hydrogen Peroxide. Do not swallow.
3. Ocular (remove contacts if applicable): irrigate immediately with water or NS solution.
4. Human bite: cleanse with povidone-iodine and sterile water.

Exposure to Blood Borne Pathogens Procedure
Immediately upon receiving a contaminated needlestick or exposure to blood, blood products, or body fluids, the student will:
1. Begin first aid measures
2. Report the incident to the clinical faculty member/preceptor and the appropriate person in the clinical agency.
3. Complete the appropriate clinical agency incident report. If incident does not occur within a clinical facility, follow College of Nursing reporting requirements as required by the Occupational Health & Safety Administration (OSHA).
4. Follow institutional protocols regarding wound care and reporting procedures. Clinical faculty should be notified as soon as reasonably possible.
5. Seek treatment intervention from the University Health Center, or a private health care provider within 2 hours of the exposure incident (at student’s expense).
Based on information provided to the health care provider, baseline lab values may be ordered. In responding to an incident in which a student experiences a contaminated needle stick or exposure to blood, blood products, or body fluids, the clinical faculty will:

1. Verify appropriate first aid measures have been initiated.
2. Counsel the student to seek follow-up care at the University Health Center or his/her private health care provider.
3. Confirm with Chief Nursing Officer (or appropriate personnel) that appropriate patient testing is currently available or has been initiated.
4. Advise the student to consult the clinical facility's protocol or the CDC for follow-up on contaminated needlesticks or exposures to blood, blood products, or body fluids should he/she choose to seek a private health care provider.
5. Assist the student in completing any administrative paperwork that may be required.
6. Complete the CON Needle Stick Incident/Exposure Report Form

References:

Substance Abuse Rules

The Texas A&M University System is committed to maintaining an environment that is free from substance abuse, as well as complying with state and federal laws. The Texas A&M System policy governing this may be found in the following regulation: 34.02 Drug and Alcohol Abuse and Rehabilitation Programs. The Texas A&M University Health Science Center as the health science center within that System adheres to these same regulations. The TAMHSC Institutional Rules on Alcohol and Illegal Substance Abuse are located under the following rule: 34.02.00.Z1 Alcohol and Illegal Substance Abuse.

As health care professionals, the CON faculty members support a policy wherein each individual providing patient care in a clinical setting or preparing educationally to become a care provider adheres to high personal health standards. This includes, but is not limited to, the avoidance of substances that impair thinking and behavior.

The College of Nursing requires all students to participate in a drug screen after admission into the program through a company determined by the College. Pre-licensure students are required to repeat screening annually at minimum. RN to BSN students must be drug screened after admission and as required by their employers and clinical agencies for practicum experiences. The student is responsible for obtaining the drug screens at their expense. The Office of Student Affairs will provide information on drug screens during new student orientation.

If a positive drug screen is reported, the student will not be allowed to continue in the program. The student will be required to withdraw from all courses with the grade earned at that point in the semester. To return to the program, the student must re-apply and be accepted, have a negative drug screen, and provide satisfactory documentation to the college of successful drug counseling and treatment, all at the expense of the student. If accepted back into the program, he/she will be subjected to unannounced random drug screening at their expense.

For the protection of patients, faculty, staff, and students, the College of Nursing retains the right to require a student to submit to testing for substance abuse at the student’s expense when the nursing program has reasonable cause to believe that a student is abusing controlled substances.
• Observable phenomena, such as direct observation of drug use or the physical symptoms or manifestations of being under the influence of a drug or alcohol, such as, but not limited to, slurred speech, noticeable change in grooming habits, impaired physical coordination, inappropriate comments or behaviors, or pupillary changes
• Abnormal conduct or erratic behavior, absenteeism, tardiness or deterioration in performance
• Report of drug use provided by credible sources
• Evidence that a student has tampered with a previous drug or alcohol test
• Possession of drug paraphernalia

If a faculty member observes such behavior, and if such behavior is observed or validated by another faculty member or clinical agency staff member, the faculty member must excuse or remove the student from the educational or patient setting immediately. The student will be transported immediately to the designated site for a drug screen. The cost of the testing will be the responsibility of the College of Nursing. Reports will be sent to the Dean and the Associate Dean for Student Affairs.

If questionable behavior is observed by a preceptor or other agency personnel overseeing a student’s clinical experience performed in conjunction with, or as a component of, meeting the requirements of a course of study in the College of Nursing, such preceptor or other agency personnel and a member of the nursing staff, in the interest of patient safety, shall have the authority to take action in the same manner as an assigned faculty member.

Additional Testing Conditions
During the clinical experience, students may be required to undergo additional substance abuse testing if the following situations arise at the facility:
• An injury occurs while participating in a clinical experience
• If a medication or handling discrepancy is discovered
• If medication may have been stolen or improperly used
• Other conditions wherein all employees of the facility are required to undergo testing

Description of the Drug Screen Panel
The College of Nursing requires each student to submit to a 10 panel + Oxycodone and Ethyl Alcohol urine screening. The panel includes the following classes of drugs: Amphetamines, Barbiturates, Benzodiazepines, Cocaine Metabolites, Ethanol, Extended Opiates, Marijuana Metabolite, Meperidine, Methadone, Methaqualone, Phencyclidine, Propoxyphene, Tramadol. Students will be directed where to complete the screening.

Appeal and Retesting Guidelines
Positive tests may be appealed by submitting a written request to the Dean or Associate Dean within three (3) business days after being informed of positive test results. The appellant has the right to have a second test performed at a certified laboratory of his/her choice and all expenses of such retest will be the responsibility of the appellant. The specimen transfer between laboratories will follow standard protocol.

Disciplinary/Actions
Any student who fails an alcohol or drug test will be subject to disciplinary sanctions and a disciplinary hearing. These sanctions could result in dismissal. An individual’s participation in and successful completion of an approved drug or alcohol counseling program coupled with his/her consent to random
testing may be considered in the disciplinary process but does not ensure that dismissal will not occur. The Dean will make the final decision on action to be taken.

The Texas Board of Nursing requires formal disclosure of an outstanding eligibility issue that may prevent an applicant from taking the licensure examination. A Declaratory Order petition must be filed if there has been any history of substance abuse. For more information, go to: Online Examination Application - Eligibility Information. See further information below regarding the responsibility of the College as it relates to reporting substance abuse.

**Refusal to Consent to Testing**

Any student who refuses to consent to an alcohol or drug test or fails to provide an adequate specimen will be subject to discipline, up to and including dismissal.

**Confidentiality**

The Texas Board of Nursing (BON) has a policy that any substance-related condition(s) may affect the ability of a nurse to safely perform nursing duties, thus creating a threat to public safety. The policy applies to all nurses or those individuals seeking to obtain licensure. A nursing education program shall report a student to the BON if they have reasonable cause to suspect that the ability of the nursing student to perform the services of the nursing profession would be, or would reasonably be expected to be, impaired by chemical dependency (as noted in the Nursing Practice Act Sections §301.404, Duty of Nursing Educational Program to Report). Students should be aware that test results may be used for administrative hearings and court cases and may be sent to state and/or federal agencies as required by applicable law. Beyond the scope of these regulations, every effort will be made to keep the results of alcohol and drug testing confidential.

**Transportation Expectations**

The College of Nursing Transportation policy requires that students are responsible for arranging their own transportation, including to and from clinical sites. Students are required to have reliable transportation to and from campus, to clinical rotations off campus, and to other community activities as required. In order to provide the best possible clinical experiences, the CON may establish placements that require travel outside the campus locations. Lack of transportation will not be accepted as an excused absence for non-attendance or tardiness at experiential or clinical rotations.

Students will be responsible for covering all gas and parking fees incurred by that mode of travel. Carpooling -- and cost sharing -- with fellow students is recommended whenever feasible. The student would be responsible for paying all transportation costs incurred. The State of Texas requires all drivers to maintain minimum liability automobile insurance coverage.

For more information, go to: TexasSure - Financial Responsibility Verification Program.
Chapter 8: Student Rules

Students in nursing and other health professions curricula are held to standards of conduct that both differ from and exceed those usually expected of university students. Each student enrolled in the College of Nursing is expected to uphold the professional code of ethics established for and by the nursing profession. Any conduct or performance considered unsafe or detrimental to the health and safety of a patient, harmful to the hospital or school environment, or lacking in professionalism will constitute an incident report (Unsafe/Unprofessional Behavior Report, see Appendix) to the student.

Any situation that threatens patient safety, exhibits a lack of moral character, demonstrates a lack of professionalism or good judgment, and/or is a violation of College/Hospital policy may result in immediate termination from the program.

Verbal or written derogatory statements about patients, clinical placements, the Health Science Center, College of Nursing students, faculty or staff will be subject to disciplinary action. This includes postings on internet social networking sites (i.e. Facebook, Twitter, YouTube, etc.)

Each student has the responsibility to be fully acquainted with and to comply with the Texas A&M University Student Rules. All rules are accessible at: student-rules.tamu.edu. The Texas A&M University Student Rules are broken down into three sections, with additional information provided in the appendixes:

- **Part I: Academic Rules** (Rules 1 - 22 & 61)
- **Part II: Student Life Rules** (Rules 23 - 44)
- **Part III: Student Grievance Procedures** (Rules 45 - 60)
- **Appendixes**

The Texas A&M Office of the Dean of Student Life has primary jurisdiction over reports of behaviors that implicate rules contained in the Student Code of Conduct. For rules and regulations governing the Student Conduct Code, see Student Rule 24. The CON has primary jurisdiction over reports of behaviors that implicate the Professional Standards of the academic program.

Student Conduct Code Procedures

The University views the student conduct system as an educational experience that can result in growth in personal understanding of one’s responsibilities and privileges in the University community. Acceptable standards of conduct have been established to protect the rights of others and the orderly operation of the University. The focus of student conduct proceedings is to determine whether the University’s standards of conduct have been violated. To this end, student conduct proceedings attempt to balance an understanding and knowledge of the students’ needs with the needs of the University community. Individuals may bring a complaint against a student for alleged violations of the Student Conduct Code. Such complaints may be submitted to the Office of the Dean of Student Life. An investigation may be initiated to determine if the complaint has merit. Complaints may result in charges, a form of alternative dispute resolution, or dismissal of complaint. These decisions are made at the sole discretion of the University.

To ensure that students understand how to appropriately pursue a grievance at Texas A&M University, students are encouraged to seek clarification and advice regarding procedures before initiating a grievance. Although a student may seek such advice from any faculty or staff member, the Office of the Dean of Student Life has staff members trained to help students who have grievances.
Students are encouraged to seek assistance from the Office of the Dean of Student Life or the Associate Dean for Student Affairs in pursuing any type of student conduct grievance.

**Professional Code of Ethics**

The CON has primary jurisdiction over reports of behaviors that implicate the Professional Standards of the academic program.

The nursing profession expresses its moral obligations and professional values through the Code of Ethics for Nurses (ANA, 2001). Each student should read the American Nurses Association Code of Ethics and be accountable for its contents. Ethics is the foundation upon which nursing is built. Nursing has a distinguished history of concern for the welfare of the sick, injured and vulnerable. This concern is embodied in the provision of nursing care to individuals and the community.

Nursing encompasses the prevention of illness, the alleviation of suffering, and the protection, promotion and restoration of health in the care of individuals, families, groups and communities. Nurses act to change those aspects of social structures that detract from health and well-being. Individuals who become nurses are expected not only to adhere to the ideals and norms of the profession but also to embrace them as part of what it means to be a nurse. The ethical tradition of nursing is self-reflective, enduring, and distinctive.

A code of ethics makes explicit the primary goals, values, and obligations of the profession. Students are expected to function within the framework of the American Nurses Association Code for Nurses.

Nursing students are expected not only to adhere to the morals and norms of the profession, but also to embrace them as part of what it means to be a nurse. The nurse recognizes that his/her first obligation is to the patient’s welfare.

Students are expected to demonstrate and embrace the following principles:

- Be responsible for his/her own learning and clinical practice and honor other students’ right to learn and be successful in academic and clinical environments.
- Demonstrate respect in verbal and non-verbal behaviors to all others in clinical and academic settings. The use of abusive language or disruptive behavior directed toward faculty, staff, or other students will not be tolerated.
- Provide safe, competent care, seeking assistance when personal knowledge and/or skill are not adequate. Avoid use of any substances that would impair clinical ability or judgment.
- Provide the same standard of care to all patients and families regardless of race, ethnicity, age, sexual preference, disability, religion, economic status, employment status, or the nature of their health problem. Accept that others have the right to their own cultural beliefs and values and respect their choices.
- Document in a thorough, accurate, truthful, and timely manner data that reflects findings from one’s own personal assessment, care, interventions, teaching, or the patient’s and/or family’s response to those activities.
- Act in a manner that contributes to the development and maintenance of an ethical educational and practice environment. Recognize that the primary commitment in clinical practice is to the patient and that respectful interactions are expected.
- Complete legally required HIPAA training and University or clinical site requirements regarding confidentiality prior to the beginning of the academic year. Use patient data in all school work, papers, presentations, research findings and in the clinical setting in a manner that is accurate, truthful, and confidential.
> Refrain from unauthorized use or possession of school or clinical setting’s equipment, patient’s belongings, or items dispersed or intended for patient use.

Students may purchase or view the Code of Ethics for Nurses by contacting the American Nurses Association Publishing Company.

**Expectations of Academic Integrity**

The HSC-CON expects academic honesty from its students as fully addressed in Chapter 6. It is the policy of the College of Nursing that academic dishonesty is inconsistent with appropriate professional behavior for the nursing student. Dishonesty will not be tolerated and appropriate punitive actions will be enforced. Accordingly, the penalties for academic dishonesty are severe and may include permanent dismissal from the program. Nursing students may be sanctioned through both the Aggie Honor System Office and the College of Nursing Office of Student Affairs for violations of academic honesty.

**Disciplinary Penalties**

One or more of the following penalties may be assessed for violation of any provision of Academic Integrity and Honesty, Code of Conduct, or College of Nursing professional standards policies:

- Written reprimand
- Financial restitution for any property damage or for any property destroyed or taken and not returned
- Grade adjustment
- Special remediation report or community service project based on the nature of the offense, to be determined by the Associate Dean. The Associate Dean for Student Affairs shall set a reasonable date for completion of the project or report.
- Disciplinary probation for a definite period of time
- Suspension for a definite period of time
- Revocation of academic credit, requiring repetition of course work
- Dismissal
- Bar against readmission
- Denial of degree
- Revocation of degree and surrender of diploma

Disciplinary probation, suspension, dismissal, bar against readmission, denial of degree and revocation/surrender of degree will be recorded on the academic transcript.

**Reporting Violations**

Any violation should be reported in writing to the College of Nursing Associate Dean for Student Affairs by the complainant(s) within ten (10) university business days of the violation becoming known to the complainant(s). The Associate Dean for Student Affairs (ADSA) in consultation with the Assistant Dean for ADAA Undergraduate Studies (ADAA) will investigate the complaint.

The Texas A&M Office of the Dean of Student Life has primary jurisdiction over reports of behaviors that implicate rules contained in the Student Code of Conduct. For rules and regulations governing the Student Conduct Code, see Student Rule 24. The CON has primary jurisdiction over reports of behaviors that implicate the Professional Standards of the academic program as outlined by the Professional Code of Ethics and Clinical Expectations. The CON may, however, refer cases to the Aggie Honor System Office rather than hear the case within the College.
Procedures for Handling Disciplinary Complaints Within the College Which Are Uncontested

If it appears that a student has breached College rules or procedures in such a way that there is a reasonable concern that injury or harm may come to patients, faculty, staff, students or the facility, interim disciplinary action may be taken in the best interest of the individuals involved and the College. Such action taken by the ADSA and the ADAA may result in written notification up to and including immediate suspension of the student from the College pending final disposition of the case.

If, after full investigation, the complaint turns out to be founded and the infraction warrants removal from participation in any part of the curriculum, suspension, dismissal from the College, bar from readmission, denial of degree, revocation or surrender of a degree, the ADSA and ADAA may refer the case to the Associate Dean for Academic Affairs for consideration. If the student does not contest the facts of the incident the violator(s) must sign a written admission that the violation took place and that the facts reported are accurate. This admission will be recorded by the ADSA as a disciplinary infraction and the ADSA and ADAA will impose the disciplinary action. The student has the right of appeal to the Dean within ten (10) university business days for penalty only. In these cases the Dean’s decision is final.

Procedures Within the College for Contested Case Investigations

If an incident cannot be handled as an uncontested offense, the CON has two (2) options of addressing the case: 1) refer the case to the Aggie Honor System Office for reported violations of the Aggie Code of Honor or, 2) initiate formal procedures to review the case as outlined in this section.

1. The Associate Dean for Student Affairs (ADSA) in consultation with the Associate Dean for Academic Affairs (ADAA) shall investigate the allegations that a student has violated one or more of the rules of the College.

2. If the allegations are determined to be of a minor nature that can be handled informally without initiation of disciplinary proceedings, the Associate Dean for Student Affairs will notify, in writing, the person filing the complaint, the student, the Associate Dean for Academic Affairs and the Dean of this decision.

3. If the investigation reveals that the evidence presented substantiates a likely breach of professional conduct, the Associate Dean for Student Affairs will initiate a hearing. The Associate Dean for Student Affairs shall prepare a written notification to the student to be either hand delivered, with written acknowledgement of receipt, or sent by certified mail, return receipt requested, containing the following:
   • a statement of the charge(s) against the student with a description documenting the violation(s)
   • a statement of the date, time, and place of the hearing on the charges. Normally, the hearing will be held not less than 10 business days or more than 21 business days from the student’s receipt of the letter. Exceptions to this time frame require the party requesting to show good cause.
   • a statement which informs the student that the student may choose to appear at the hearing or waive that right in writing.
   • a list of the witnesses furnishing the evidence supporting the charge(s).
   • a request that the student provide to the Committee a list of witnesses, legal counsel, or others that will be in attendance 24 hours before the scheduled date of the hearing.
Disciplinary Hearing

The Student Appeals Board is a recognized special committee under the CON Bylaws whose purpose is to consider student appeals relating to violations of nursing standards as outlined in the professional code of ethics. Membership will consist of three (3) faculty members, one of whom will serve as chair and two (2) students. The Associate Dean for Student Affairs will serve as a non-voting member. The Disciplinary Hearing will follow these guidelines:

- The date of the hearing must be set, at the earliest, ten (10) university business days following student receipt of the written statement of the charges against them but no longer than 21 university business days following receipt, unless agreed to by both the student and the committee.
- All meetings, investigations, proceedings, and hearings conducted under the provisions of this document shall be confidential. Faculty and students on the panel will sign a confidentiality agreement.
- The ADSA and/or the ADAA will present the case to the committee by stating any pertinent evidence along with an explanation of the investigative process. The ADSA will address any questions the committee or the accused has in regard to the evidence or the investigation.
- The College has the burden of presenting the evidence and proving the charges by a preponderance of evidence. Evidence, to be admissible, need not meet the standards of admissibility established by the rules of evidence.
- The student has the right to be present at the hearing and may question witnesses.
- The student has the opportunity to present their version of the facts through personal statements, affidavits or witnesses.
- The student may have legal counsel present to provide advice but cannot question or interview other participants in the proceedings.
- The student may request a transcript or a copy of the recording of the hearing.
- The Committee may question the student and will summon, present and reasonably question all witnesses.
- All decisions by the Student Appeals Committee shall be secret ballot and majority rule.
- The Committee shall make a decision of guilty or not guilty based solely on the evidence presented at the hearing.
- The decision of the Student Appeals Committee may be appealed to the Dean within 10 days.

Right to Appeal

1. Within ten (10) university business days after the student has been notified of the decision, the student may appeal the decision of the Student Appeals Committee to the Dean.
2. The appeal must be in writing and specifically state the reason for the appeal and what action by the Dean is sought.
3. The Dean may approve, reject or modify in whole or in part, the decision and/or assessed penalty in question. Should the Dean choose to reject or modify the decision in question, he or she will clarify the position to the appropriate parties.
4. In these cases, the Dean’s decision is final.
False Alarm/ Report Penalties

Recent legislative changes established new penalty provisions for the offense committed under Section 42.06, Penal Code, of making a false alarm or false report involving a public or private institution of higher education. As of September 1, 2013, an offense committed under this section is a Class A misdemeanor, punishable by a fine of up to $4,000 and a jail term not to exceed one year. However, it is considered a state jail felony offense if such a false report or false alarm relates to an emergency involving a public or private institution of higher education or involving a public primary or secondary school, public communications, public transportation, public water, gas, or power supply or other public service. A state jail felony is punishable by a fine of up to $10,000 and a jail term from 180 days to two years.
Chapter 9: Student Services and Resources

Academic Advising

Academic advising is available for all CON students. Students are assigned to an academic advisor who will assure that all students meet the academic requirements for graduation. To make an appointment for academic advising, please email or call your advisor directly or contact the CON office. The primary purpose of academic advising at Texas A&M University is to assist students in the development of meaningful educational plans compatible with their personal abilities and goals. An academic advisor in the CON can assist a student with general information about the program, curriculum, policies, and procedures within the College. In addition, s/he can help the student with class registration, academic learning resources, registrar processes, student services and counseling.

Academic Advising Defined: Academic advising engages students beyond their own world view recognizing the “art of possibility.”

Student Responsibilities: The ultimate responsibility for making decisions about personal goals and educational plans rests with the individual student. Students are responsible for knowing their degree requirements, relevant rules, policies, and deadlines, and for consulting with their advisors and the degree evaluation system.

- Keep contact information current (local and permanent addresses, phone numbers, and emergency contact information).
- Read all correspondence from the College and the University then act accordingly.
- Be open to developing and clarifying personal values and goals.
- Research department and college programs and courses. Understand the process and requirements for applying for upper-level admittance.
- Keep records of academic goals and progress. Take notes during advising meetings.
- Utilize campus resources to enhance your academic experience and develop professional and personal goals.
- Respect others: Be on time, be prepared, and treat your advisor and other students as you would wish to be treated.

Advisor Responsibilities: Academic Advisors are responsible for upholding the integrity and value of your degree by maintaining the rules, standards, policies, and procedures of Texas A&M University and the College of Nursing. Academic advisors assist by helping to identify and assess alternatives and the consequences of decisions. Academic advising is a continuous process of clarification and evaluation.

- Listen carefully and respect the student’s questions, concerns, and problems.
- Collaborate with the student in development of academic and personal goals and interests.
- Assist students in making academic decisions consistent with goals, interests, and abilities.
- Provide referrals and resources when appropriate to student needs.
- Communicate degree requirements.

Access to Student Records

Information in student records will be released only to faculty and professional staff for authorized legitimate educational interest. The student’s consent is required to release information other than public information to any non-HSC person unless required by law or upon subpoena duces tecum. Public information includes: a student’s name, home address (including country), local address, telephone numbers, classification, enrollment status, major, dates of attendance, date and place of birth, photos and other types of media, degrees, certificates, and other awards received, the name of the institutions previously attended, and medical residence location and specialization.
If a student does not wish for this public information to be released, the student is responsible for notifying the Office of the Registrar during the first week of classes to ensure that information is not released by the HSC. A request to withhold public information remains in effect until revoked in writing. This request does not apply when an emergency occurs that indicates that the student is a danger to others or themselves or in the case of an FBI request that is in compliance with the Family and Compliance Office that administers Family Educational Rights & Privacy Act (FERPA). Within the institution, information from students’ educational records is given without the consent of the student to administrative officials, faculty members and their staff, only for legitimate purposes in the students’ educational interests.

FERPA affords students certain rights with respect to their education records. These rights include:

1. The right to inspect and review the student’s education records within 45 days of the day the HSC receives a request for access.
2. The right to request the amendment of the student’s education records that the student believes are inaccurate or misleading.
3. The right to consent to disclosures of personally identifiable information contained in the student’s education records, except to the extent that FERPA authorizes disclosures without consent, including published directory information. One additional exception permits disclosure without consent to administration, faculty or staff with legitimate educational interests.
4. The right to file a complaint with the U.S. Department of Education concerning alleged failures by the HSC to comply with the requirements of FERPA.

All the rights and protections given students under FERPA and this policy belong to the student. However, information in student records may be provided to parents without the written consent of the student if the eligible student is a financial dependent of his or her parents as defined under Section 152 of the Internal Revenue Code of 1954. For more information, go to FERPA Notice to Students.

**Disability Services**

It is the policy of the College of Nursing to comply with the Americans with Disabilities Act of 1990, Section 504 of the Rehabilitation Act of 1973, and other applicable federal and state laws that prohibit discrimination on the basis of disability. Students who wish to obtain individual accommodations must provide documentation from a licensed professional. The Department of Disability Services on the campus of Texas A&M University coordinates efforts for the benefit of the individuals covered under the statute. Students must present each course coordinator a copy of the accommodations letter a minimum of 3 business days before the first exam.

Students who wish to request reasonable accommodations are encouraged to contact the Department of Disability Services to start the process for documenting their disability and determining eligibility for services prior to the start of the program. If you have not heard from the Disability Services within 3 weeks of submitting information you should contact the office. Students with disabilities are expected to perform all the Essential Competencies of the program with or without reasonable accommodation. We will work with the student to provide reasonable and appropriate accommodations. While The College of Nursing will make every effort to work with our students with disabilities to accommodate their disability-related needs, it is important to note we are not required to provide requested accommodations that would fundamentally alter the essential functions or technical standards of the program.

Disability Office Contact Information:

Disability Services, Texas A&M University  
Cain Hall, Room B118  
College Station, Texas 77843-1224  
Disability Services Main Office: (979) 845-1637~ disability@tamu.edu
For additional information or assistance, contact Kathryn Cochran, Associate Dean for Student Affairs.

**Health Services**

Bryan campus students are eligible to receive services at the A.P. Beutel Student Health Services located on the Texas A&M University campus. [Student Health Services](#) is an accredited ambulatory health care provider serving students by providing primary health care services and promoting health through prevention and education. Visits to medical care providers, ambulance transport service on campus, and consultation with contracted medical specialists or health educators are available at a reduced cost. For more information, please go to: [Student Health Services](#)

Students located in Round Rock and McAllen will not be assessed the Student Health Services fee thus are not eligible to utilize these services. They are encouraged to access needed services through local healthcare providers.

**Library Resources**

An extraordinary array of resources and services are available to students through the Texas A&M University Library system which includes the Sterling C. Evans Library, the Cushing Memorial Library and Archives, the West Campus Library, the Policy Sciences and Economics Library, and the Medical Sciences Library. Current university library holdings include over 4 million volumes, 1300 electronic databases, and material in virtually all forms of audiovisual media. The University library ranks 23rd in collection expenditures ($18.4 million) among U.S. academic libraries. As for targeted offerings, over $2.7 million in annual collections expenditures are applied to materials that support the professional programs at the TAMHSC.

Students and faculty have access to reference services in person, over the phone, through email and online via a live chat format. Library staff can assist students in using online resources, web pages and resource guides at any geographical location. Educational services include traditional in-person instructional sessions, online subject guides and tutorials, and customized programs. MSL librarians also provide informatics instruction within the nursing curriculum.

The Medical Science Library is open 7 days a week. Go to [Medical Science Library](#) for more information.

**Security**

The Texas A&M University Police Department (UPD) provides law enforcement and security services to all components of the main academic campus and a variety of satellite facilities throughout Brazos County. The department has 125 authorized positions including 57 state certified Police Officers and 50 Security Officers. The TAMHSC Bryan Campus provide security officers on site 24 hours a day. They are available to escort students to the parking lot after hours. You may stop by the security desk on the 1st floor of the HPEB building to get assistance. The TAMHSC Round Rock Campus provides security officers between the hours of 7 am and 6 pm Monday through Friday. Any criminal offense, suspected criminal activity, or other emergency on campus should be reported directly to HSC Security at: Bryan Campus 979-436-9000, Round Rock Campus 512-341-4900, McAllen Campus 956-668-6300, in person, or by dialing 9-911 from any campus phone or by using one of the emergency blue light telephones located throughout some campuses.

**Personal Counseling**

Programs for academic success as well as personal counseling and crisis intervention are available through the Texas A&M University Student Counseling Service (SCS) for students located in Bryan/College Station. The SCS provides short-term counseling and crisis intervention services. They also
provide individual, group, and couples counseling for personal concerns that are common among undergraduate and graduate students. Common concerns that students face include relationship difficulties (e.g., romantic partner, roommate, family), depression, anxiety, stress, dealing with change, fear of failure, career uncertainty, and coping with feelings such as loneliness, sadness, shame, anger, guilt, etc. For more information, go to Texas A&M University Student Counseling Service (SCS) or contact the Associate Dean for Student Affairs.

Students located at the Round Rock and McAllen campuses may utilize a variety of services offered through the University of Texas Student Assistance Program. These services include:

- Confidential Counseling
- Financial Advice and Analysis
- Simple Will Preparation
- Legal Consultations
- Identify Theft Solutions
- Worklife Services
- Wellness and Stress Management
- Solutions to Life’s Challenges

For more information, call (713) 500-3327 or toll-free (800) 346-3549, visit the UT Employee Assistance Program’s website or contact the CON Office of Student Affairs.

**Clinical Learning Resource Center (Simulation Lab)**

The Clinical Learning Resource Center (CLRC) in the Health Professions Education Building on the Bryan Campus offers a simulation laboratory available to students with a state-of-the-art emergency room, infant and adult patient simulators, and other training tools. Students utilize this facility for clinical experience and may schedule use as needed after hours to practice a variety of clinical skills. The patient simulators are always treated like real patients to foster the caring nature of healthcare professionals. These simulators are capable of mimicking signs and symptoms of almost any medical condition including a ‘Code Blue’ situation (cardiac and/or respiratory arrest). Scenarios simulating real patient encounters with students and patient simulators can be recorded to permit a debriefing with their instructor after completion of a scenario. Round Rock Campus also offers a large simulation lab with full access to students as needed.

**Study Helps**

Programs for academic success are available through the Texas A&M University Student Counseling Service for Bryan/College Station based students. Services include individual and group counseling, assessment of study behaviors, screening for learning disabilities, an extensive collection of self-help resources, and weekly workshops on a variety of study skills topics. For more information, go to TAMU Student Counseling Service.

Students located on the Round Rock or McAllen campus may request tutoring assistance through their course coordinators. In addition, the CON has a designated faculty member available to work one-on-one with at-risk students. The College of Nursing provides a variety of resources for all students to assist them with study skills. Students have access to study plans, skills videos, and remediation materials through various resources provided within the College which allow them to review content as they progress throughout the program, and during the crucial period between graduation and the licensure examination. Students are encouraged to schedule an appointment with their course instructor(s) when in need of academic assistance.
Chapter 10: Student Life

Community Service Opportunities
In conjunction with the CON goal to assist students in serving the community as new healthcare providers, leaders and consultants, students are encouraged to participate in community service events/opportunities. On occasion students may receive a limited number of clinical credit hours for their participation. Instructors will identify these opportunities and students will be required to provide in writing details of the event.

Recreation Center
Students in Bryan/College Station will be allowed to utilize the Texas A&M University Recreation Center located on the main campus of Texas A&M University. Opened in 1995, it remains one of the premier recreational facilities in the nation. The Student Rec Center provides an outlet to help clear your mind, stay in shape and recharge your spirit. Whether you are interested in aerobics or body building, swimming or volleyball, rock climbing or simply running, you will find it all at the Student Recreation Center.

Students at other campuses or those taking distance education classes will not be assessed the Recreation Center fee; therefore, they are not eligible to utilize the TAMU Rec Center. Students are encouraged to utilize local facilities to promote health and well-being.

Sports Pass/ Ticket Options
All students will be given the option of purchasing a ticket package to Texas A&M University sporting events. This option will be available during fall registration and, if requested, cost of the tickets will be added to the tuition and fee statement. Students must have a Texas A&M University identification card to use a sports pass. These can be obtained at the General Services Complex building located on Agronomy Road at the student’s expense. For more information, visit My Sports Pass.

Student Participation in Committees
Students have the opportunity to serve on various committees within the College by election from the student body or through appointment. At the beginning of each academic year, the Class Council will provide details about the committee opportunities and hold elections. A list of committees with student representation include the following:

- Undergraduate Curriculum Committee
- Commencement Committee
- Program Evaluation Committee
- Student Affairs Committee
- Student Appeals Board
- HSC Student Government Association

Student Organizations
Each nursing student is encouraged to actively participate in professional organizations to enhance the educational experience, to further develop personal growth and professional identity as well as to facilitate communication and camaraderie among fellow students. Officers of student organizations must maintain a 2.5 grade point average in order to continue in their position(s). If their grade point average
falls below a 2.5 they must withdraw from their position. A student may not serve as an officer during a year that is repeated or modified.

**Class Council**

The class council is a student-led organization that is dedicated to fostering leadership and involvement opportunities for TAMHSC nursing students. All nursing students are encouraged to actively participate. The group will hold meetings once per semester as a minimum, but may call other meetings as needed.

In addition to electing officers, the Class Council will elect committee chairs and members of College of Nursing standing committees. Elected officers may include a president, vice-president, secretary, treasurer, historian, and class representatives. Committee chairs to be elected include a community service chair and a social chair. The Bryan and the Round Rock campus may have separate councils as long as each group has a minimum of 3 officers and an advisor.

The College of Nursing standing committees that have student members include:

- Undergraduate Curriculum Committee (2)
- Program Evaluation Committee (2)
- Student Affairs Committee (2)
- Student Appeals Board (2)
- HSC Student Government Association (4 with 1 alternate)

Student members will serve for a term of one year and will have voting privileges. Committees will meet a minimum of once per semester. For questions about committee service participation and expectations, please contact the Associate Dean for Student Affairs.

Only students in good academic standing (overall GPA 2.5 or above for the current semester and the semester immediately prior to election/appointment and not on probation for any reason) may serve on committees.

**Student Nurses Association**

The SNA is a local chapter of the National Student Nurses Association (NSNA). The NSNA mentors the professional development of future nurses and facilitates their entrance into the profession by providing educational resources, leadership opportunities, and career guidance. Membership is voluntary. The CON will have only one SNA chapter.

The purpose of the TAMHSC-SNA is:

A. To assume responsibility for contributing to nursing education in order to provide for the highest quality health care.

B. To provide programs representative of fundamental and current professional interests and concerns.

C. To aid in the development of the whole person and his /her responsibility for the health care of people in all walks of life.

**Nurses Christian Fellowship**

This organization is a ministry of InterVarsity Christian Fellowship/USA. The purpose of Nurses Christian Fellowship is to establish and advance in nursing, within education and practice, witnessing communities of nursing students and nurses who follow Jesus as Savior and Lord: growing in love for God, God’s Word, God’s people of every ethnicity and culture, and God’s purposes in the world. NCF membership is open to nurses and nursing students in the U.S. who annually affirm NCF purposes and doctrinal basis.
Aggie Newborn & Obstetrics Nurses Association (ANONA)
The purpose of Aggie Newborn and Obstetrics Nurses Association (ANONA) is to create an organization for student nurses with an interest and passion about Women’s Health, Labor & Delivery (L&D), Nursery and Neonatal Intensive Care Unit (NICU) specialties.

Aggie Pediatric Nursing Association (APNA)
The purpose and mission of APNA is to provide future pediatric nurses additional opportunities to increase their knowledge of the pediatric field and opportunities within the nursing profession.

Sigma Theta Tau International Honor Society
Phi Iota Chapter is the TAMHSC-College of Nursing chapter of Sigma Theta Tau International Honor Society of Nursing. This organization recognizes outstanding scholarly achievements of nurses worldwide. It exists to recognize superior achievements in nursing, encourage leadership development, and foster high nursing ideals of the profession. Sigma Theta Tau currently has over 500 chapters and more than 135,000 members in 90 countries. Colleges and universities across the United States with accredited nursing education programs which grant baccalaureate and higher degrees have chartered chapters.

On May 15, 2011, the College of Nursing’s Phi Iota chapter was named as a new charter chapter in Sigma Theta Tau International. This chapter is active in bringing together nursing students and professional nurses in the area. Nursing undergraduate and graduate students as well as nursing professionals may be inducted into the organization. Eligible students will be invited for membership during the fall term with induction in the spring.

Criteria eligibility for the undergraduate student:
1. Have completed at least one-half of the nursing curriculum
2. Have a minimum GPA of 3.0 on a 4.0 scale (calculated from 58 hour prerequisites along with grades earned from nursing curriculum
3. Rank in upper 35% of graduating class
4. Meet the expectation of academic integrity and professional leadership potential

Criteria eligibility for the masters/doctoral student:
1. Have completed at least one-fourth of the nursing curriculum
2. Have a cumulative GPA of 3.5 or higher earned in the nursing curriculum
3. Meet the expectation of academic integrity and professional leadership potential

New Student Organization Recognition and Approval Process
All student organizations wishing to be affiliated with the College of Nursing, acknowledged as an official student organization, and a recipient of all rights and privileges afforded formal student organizations within the school must be reviewed and approved. All official student organizations affiliated with the College of Nursing must demonstrate both in purpose and actions consistency with the mission and vision of the College of Nursing. In addition, official student organizations must follow CON and A&M System regulations and codes of conduct. Finally, all official student organizations affiliated with the College must successfully proceed through the formal student organization recognition process through the TAMU Student Activities organization unless a waiver is granted by the approving entities.

Student organizations that are not fully approved and recognized as official student organizations within the CON may not use the College’s name or resources in any way in the execution of their organization’s business. The Office of Student Affairs is responsible for providing additional information and assistance to anyone considering proposing a new official student group within the CON.

68
Required Documentation for Proposal: Any group interested in being recognized as an official student organization within the CON, must submit a proposal including information on the following:

- the purpose and mission of the proposed organization;
- proposed activities of the organization;
- needs and interests among the student body the proposed organization will fulfill that are not currently being met by another official student organization within the CON;
- estimated membership and membership criteria;
- signature of at least one CON faculty member willing to serve as the organization’s faculty advisor

Required Review and Approvals for a New Student Organization: In order to secure the requisite approval and recognition as an official student organization within the College of Nursing, the proposal (see above) must be reviewed (and documented) by the following entities (in the order indicated):

- College of Nursing Student Affairs Committee
- CON Faculty Committee
- CON Dean

Once reviewed by these entities, the proposed student organization is free to proceed through the final stages of the TAMU Student Organizations recognition process. Once approved and fully recognized by the Office of Student Activities at TAMU, the organization must submit its constitution and bylaws to the Office of Student Affairs in the College of Nursing.

Interprofessional Organizations

There are many other student organizations with healthcare focus within Texas A&M University. Some organizations have leadership representation from all Health Science Center colleges. Examples include: Healthcare Professionals for Life, Global Health Outreach, One Health. To find other organizations, go to the Texas A&M Student Activities webpage.
Chapter 11: Graduation and RN Licensure Information

Graduation Requirements

In order to qualify for the Bachelor of Science in Nursing (BSN) degree, each student must fulfill the following:

- Complete the nursing curriculum with a grade of “C” or better in all nursing coursework and a minimum 2.0 (on a 4.0 scale) cumulative grade point average,
- Successfully complete the Core Curriculum for Texas A&M University if not met in previous coursework or conferred degree,
- File an application for degree through the Howdy portal by the designated deadline
- Pay any associated graduation fees
- Clear all financial and other obligations to the Texas A&M Health Sciences Center and Texas A&M University.

Provision will be made for pre-licensure BSN students to retake the program comprehensive HESI exam up to three times, if needed, to obtain a passing grade. Should the student need to retake the exam, the cost of the second and third attempts will be the responsibility of the student. Remediation guidance will be provided by faculty mentors who develop an individualized learning plan identifying areas needing further study. Students will be able to access ongoing personalized remediation content based on the student’s individual test performance in each course through Evolve Reach (the company through which the exam is administered). Should a student not pass on the 3rd attempt, they will not be able to graduate and must complete an independent study during the subsequent term before attempting the exam a 4th time. See NURS 430 syllabus for more information.

All graduates must complete the following:

1. Foreign Language Requirement. This graduation requirement can be satisfied by the satisfactory completion in high school of two units of the same foreign language or one year of the same language at the college level. Students who wish to demonstrate foreign language proficiency without taking acceptable high school or college courses may do so through the existing credit by examination process. In cases where students wish to demonstrate proficiency in a language not taught at Texas A&M, the following procedures require a request for exam from the Head of the Department of Hispanic Studies or the Head of the Department of International Studies. All arrangements shall be made and fees paid by the student. American Sign Language may be used to fulfill the requirement.

2. Writing Course Requirement. The requirement may be met by taking two writing (W) or one writing (W) and one oral communication (C) course. This may not be met by any course listed as a University Core Curriculum communication requirement nor through credit by exam. Nursing courses that currently meet these requirements include NURS 314, 411, 461 and 467. All Trad, SD, and RN to BSN students should have taken 2 of these courses as part of your curriculum.

Graduation Commencement

As students enter their final semester, the Office of Student Affairs will provide information to graduating students. Commencements will vary depending on the track to which the student is enrolled. Students must complete the application for graduation. The Registrar’s website provides details on this process.
To be eligible for graduation with honors, a student seeking a baccalaureate degree must enroll in and complete a minimum of 60 semester hours at Texas A&M University preceding graduation and have a grade point ratio at this institution equal to or greater than that required for the appropriate category of honors. Course credit received by examination, and courses reserved for graduate credit only, are excluded from the calculation of the number of hours and the grade point ratio for graduation with honors.

RN to BSN students are not eligible to earn University honors due to the fact that they earn only 30 semester credits.

No Upper Division student found responsible for misconduct may receive Cum Laude, Magna Cum Laude, or Summa Cum Laude honors at graduation. Upper Division status is defined as having earned 60 or more credit hours (including transfer hours and advanced placement credits) on the date of the violation. This sanction is automatic upon a finding of academic misconduct, and is imposed without regard to the severity of other sanctions imposed by either the instructor or the Honor Council.

Categories for honors shall be designated as follows:

- **Summa Cum Laude:** A student may be graduated “Summa Cum Laude” with a grade point ratio of 3.90 or above.
- **Magna Cum Laude:** A student may be graduated “Magna Cum Laude” with a grade point ratio range of 3.70 through 3.899.
- **Cum Laude:** A student may be graduated “Cum Laude” with a grade point ratio range of 3.50 through 3.699.

Stoles for honor graduates will be distributed during line-up before graduation. These stoles may be kept by the graduate after the ceremony.

These honors designations do not require participation in any honors courses. Students who have taken honors courses may also qualify for university-level designations. Students may contact Honors and Undergraduate Research at 845-1957 or by email to honors@tamu.edu for details about these additional designations.

Grade point averages used to determine Latin honors designations are calculated during the final degree audit the day before the graduation ceremonies and include hours and final grades in courses taken during the graduation semester. Latin honors designations will not be changed after the final graduation clearance deadline. TAMU Student Rules specify certain credits that are excluded from the calculation.

**CON Recognition Ceremony**

The College will hold a separate ceremony from Commencement during which students will receive their baccalaureate nursing school pin and several student awards will be given. This event is typically held on the same day as Commencement.

**RN Licensure**

The practice of nursing is controlled by state law. In the interest of public safety, state licensure is required to be employed as a professional nurse and to use the designation registered nurse or RN. Criteria for licensure include: graduation from an accredited program of professional nursing education, demonstrating good professional character, successfully completing the Jurisprudence Exam and the National Council Licensure Examination for Registered Nurses (NCLEX-RN). Good professional character is confirmed through a criminal background check and a strong record of academic integrity. More
information may be found on professional character, standards of nursing practice and unprofessional conduct by reviewing the Board of Nursing Rules and Regulations Rule 213.27-213.30 and Rule 217.11 – 217.12.

Each student will be provided with the Nursing Practice Act textbook during their first semester with content incorporated in the following courses: NURS 305 and NURS 430. The Jurisprudence exam will be given in the final semester in The Transition to Professional Practice course (NURS 430). A list of the requirements for licensure of graduates of nursing education programs within the United States may be found in Rule 217.2 Licensure by Examination for Graduates of Nursing Education Programs within the U.S., its Territories or Possessions of the Texas Administrative Code for the Texas Board of Nursing. Eligibility for taking the licensure exam is determined by the Texas Board of Nursing (TBON). Requirements are described in the following documents which are accessible from the BON website.

Persons wishing to be employed as an RN in another state must seek licensure in that state.

1. Articles 301.252, 301.257, 301.452 to 301.469 of the Nursing Practice Act Texas Occupations Code

The Texas BON may refuse to approve persons to take the licensure examination, may refuse to issue or renew a license or certificate of registration, or may refuse to issue a temporary permit to any individual who has been:

- Convicted of a felony, a misdemeanor involving moral turpitude, or engaged in conduct resulting in revocation of probation imposed pursuant to such conviction (Rules 213.28. Licensure of Persons with Criminal Convictions),
- Addicted to or treated for use of alcohol or any other drug within the past five years (Rules 213.29. Criteria and Procedure Regarding Intemperate Use and Lack of Fitness (b) (1),
- Diagnosed with, treated or hospitalized for mental illness with the past five years (Rules 213.29. Criteria and Procedure Regarding Intemperate Use and Lack of Fitness (b) (2).

See more information below regarding the students’ right to petition the Board for a Declaratory Order of Eligibility.

Applicants registering for the NCLEX and applying to the state board for licensure in Texas will be required to submit fingerprint cards for the Department of Public Safety and Federal Bureau of Investigation criminal background checks and must attest to the truth of the statements listed on the licensure application. Disclosing criminal background, mental illness and substance or alcohol abuse is required. If the student submitted to the Texas BON background check prior to entry into the CON, they will not be required to repeat this process. The Associate Dean for Student Affairs will assist currently enrolled pre-licensure students with the Texas Board of Nursing application process. Failure to meet the Texas BON deadlines or those deadlines from other states will delay the licensure process. Students applying for licensure in other states are responsible for contacting those states’ Board of Nursing for an application packet at the beginning of the semester of graduation and fulfilling any necessary requirements.

Declaratory Order of License Eligibility

The Texas Board of Nursing (TBON) has identified certain circumstances that may render a potential candidate ineligible for licensure as a registered nurse in the State of Texas. The Board provides individuals the opportunity to petition the Board for a Declaratory Order as to their eligibility in
accordance with Article 301.257 of the Nursing Practice Act. A Declaratory Order is required if there is any history related to criminal activity, alcohol/substance abuse, or mental illness. It is the student’s responsibility to read and respond, if needed, to the Order. Failure to file the Order with the TBON in a timely manner could prevent the student from being eligible to sit for the NCLEX.

**Nursing Jurisprudence Exam (NJ E)**

Effective September 1, 2008, a passing grade on the Nursing Jurisprudence Exam is required by the Texas Board of Nursing of all applicants for initial licensure. Under the terms of a recent amendment to Board Rule § 217.17, initial licensure applicants will be tested regarding their knowledge of board statutes, rules, position statements, guidelines, disciplinary sanction policies, frequently asked questions, and other resource documents accessible on the board’s web page relating to the regulation, licensure, and practice of nursing under the following categories:

- Nursing Licensure and Regulation in Texas;
- Nursing Ethics;
- Nursing Practice;
- Nursing Peer Review; and
- Disciplinary Action.

Content for the NJ E will be presented throughout the nursing curriculum with emphasis in Transition to Professional Practice (NURS 430) during which successful completion of the exam will be required. Students may repeat the exam if they do not score a 75 on the first attempt. There is no cost to the student for the exam.

**National Council Licensure Examination (NCLEX-RN)**

The NCLEX-RN examination is a computerized national examination designed to test knowledge, skills, and abilities essential to safe and effective practice of nursing at the entry level. Candidates who receive a passing level on the NCLEX may use the legally protected title, Registered Nurse, and are entitled to practice nursing with the scope of practice of the Registered Nurse.

Information on licensure will be given to students in the semester prior to graduation by the Office of Student Affairs.

The NCLEX is administered through Pearson VUE, a third party vendor who administers the exam. It is recommended that students register with Pearson Vue one (1) month prior to graduation or applying to the Board to take the NCLEX examination. Register for the NCLEX examination with Pearson VUE. For more information on the NCLEX, please go to National Council of State Boards of Nursing (NCSBN).
APPENDIX A

Unsafe/ Unprofessional Behavior Report and Action Plan

Student Name (type or print legibly)  Course Name and Number

Date  Date and location of Incident(s)

This student has demonstrated behaviors that do not meet the standards of professionalism and/or safe clinical practice as identified in the policy related to professional practice for students of Texas A&M Health Science Center College of Nursing. Policy may be found in the Student Handbook and/or in the course syllabus.

Check the appropriate categories below and provide specific, relevant documentation of behavior.

1. The student’s practice fails to meet the needs of the client from a biological, psychological, sociological, and cultural standpoint or fails to promote the continuity of care.

☐  Is unsafe when performing psychomotor/technical skills.

☐  Is unable to achieve therapeutic nurse-client relationships characterized by rapport, empathy, and respect

☐  Care includes act(s) of omission in the care of the client, or in relationships with peers, faculty or staff.

☐  Displays mental, physical, and/or emotional behavior(s) which negatively affect others. (Be specific)

☐  Other

Supporting documentation

2. The student’s practice lacks consistency in preparation, ability, documentation, and/or communication skills either in the classroom or clinical setting.

☐  Attempts skills/activities without adequate preparation or assistance.

☐  Demonstrates inaccurate or incomplete or misleading verbal/written communication.

☐  Misrepresents or falsifies actions or information

☐  Acts in such a way to create significant anxiety and/or stress to others.

☐  Is verbally abusive and/or exhibits threatening, coercive, or violent behavior toward anyone.

☐  Violates the boundaries of professional nurse-patient/family relationships, e.g. engages in romantic or sexual relationships.
3. The student fails to practice within the boundaries of the Texas Nurse Practice Act, the course syllabus, policies of the Texas A&M Health Science Center College of Nursing, and/or rules and regulations of the health care agency.

☐ Is habitually (more than 2 times) tardy or absent.
☐ Is suspected of being under the influence of drugs and/or alcohol in class or clinical.
☐ Dresses inappropriately and/or exhibits nonprofessional appearance/behavior (refer to dress code).
☐ Exhibits behavior that is inappropriate (i.e. sexist, racial, threatening, or demeaning, includes swearing, &/or talking in class).
☐ Does not maintain confidentiality.
☐ Ignores unethical behavior of others.
☐ Does not demonstrate respect for the preferences of the client.
☐ Requires repeated reminders of responsibilities consistent with college or agency policies.
☐ Other

Supporting documentation required:

4. The student lacks effort directed toward self improvement.

☐ Is resistant or defensive regarding suggestions for improvement.
☐ Does not recognize deficiencies and the need for improvement.
☐ Does not accept constructive criticism or take responsibility for errors.
☐ Is belligerent, abusive or critical of others.
☐ Other

Supporting documentation required:

5. The Student unreasonably interferes or prevents others to freely participate in an activity, program, or service, including the prevention of faculty/staff from carrying out their professional responsibilities.

☐ Persistently arrives late or leaves early.
☐ Talks while faculty or speakers are delivering a lecture.
☐ Interrupts the flow of class with questions or interjections.
Uses computer, cell phone or other technology device inappropriately in class, lab, or clinical.

☐ Other
